

BOND TOTAL GAINS ANOTHER \$200,000 IN TODAY'S REPORT

It is Still \$144,000 Short of County's Maximum Quota With Two Days Left

CAMPAIGN ENDS SATURDAY

Liberty Loan Meeting Held Yields \$25,000 in Subscriptions and New Salem, \$3,000

SPLENDID ADDRESSES HERE

Frederick Matson Discusses Bond Issue and Lieut. Ross Gives Experiences in War Zone

Rush county's subscriptions to the Second Liberty Loan of 1917 today mounted to approximately \$800,000 following celebrations on Liberty Loan day yesterday, but the grand total is still \$144,000 short of the maximum quota for the county, which the local committee had visions of reaching today.

However, prospects were reported as being brighter than they were the first of the week and there is a probability that the maximum of \$944,000 will be reached by tomorrow, if sales that are in prospect are made before the close of business Friday. Saturday is the last day of the campaign and the committee is anxious that Rush county not fall short of what it is expected to do.

Today's subscriptions jumped \$200,000 over the total of yesterday, about \$28,000 of which was realized through the Liberty Loan meetings held in the county on Liberty Loan day. Subscriptions at the meeting at the Graham Annex auditorium here last night yielded approximately \$25,000 and about \$3,000 was subscribed at the Noble township meeting at New Salem yesterday afternoon.

Douglas Morris addressed the meeting at New Salem and the Rev. Mr. Iliff, pastor of the M. P. church there, introduced the speaker and made a few brief remarks. The school auditorium was crowded with people, most of whom were women and children. Many women subscribed to the Liberty Loan and what men were present came prepared to do their bit by loaning Uncle Sam some money. School children provided some music and there was also music by an orchestra.

Following the two splendid addresses by Lieut. R. T. Ross of the French aviation corps and Frederick Matson of Indianapolis at the Graham Annex, subscriptions to the Liberty Loan were taken. One \$5,000 subscription, one \$3,000 and six of \$2,000 each were made, and there were about a dozen \$1,000 subscriptions. The remainder of the \$25,000 was subscribed in smaller denominations.

Frederick Matson's address on the Liberty Loan was regarded as the best exposition of the question which was ever heard here and convinced the audience that they were not only doing the patriotic thing by investing, but that it would be poor business judgment not to invest if they had the money.

"The government is serving humanity and saving you and me money by going into the war on a vast scale and asking for billions instead of millions," said Mr. Matson.

The speaker said that two years of the civil war could have been cut off if the people had subscribed to the government bonds more liberally so that the Union armies could have been better equipped and cared for.

"Instead of conscription wealth," he continued, "as it has a right to do, the government is graciously asking us to loan it money backed by the best security ever known to man. A four per cent investment is good because you do not have to pay any taxes on it. In Marion county,

Indications Are Nation Passed The Minimum

Reports Reaching Washington Say Whole Country is Aroused to Highest Patriotic Fervor and if Same Spirit is Maintained, \$5,000,000,000 Will be Reached.

BANKERS SWEEP OFF FEET

(By United Press.)

Washington, Oct. 25.—Indications today were that the Liberty Loan has passed the \$3,500,000,000 mark. Reports showed that the entire nation is aroused to the highest patriotic fervor and if the same spirit continues the \$5,000,000,000 will be reached by Saturday.

Bankers and local committees throughout the country have been swept off their feet by the rush of the Liberty Bond business. Many have telegraphed that thousands of purchases are being made.

The president of the Panama republic and all his cabinet have subscribed.

and the same thing will apply in most any county in the state, it is better than a six or six-and-a-half first mortgage security."

Mr. Matson called attention to the fact that government bonds always sell at a premium. He recalled that no government four per cent bonds had been sold since the civil war except some during Cleveland's administration when the gold supply got low. He pointed out that the three per cent government bonds issued during the Spanish-American war were quoted afterwards at 110 and 112.

"This is what will happen to these bonds," he stated. "It is certain that they will sell at a premium just as soon as the war is over. It is extremely easy to invest because the banks are helping by offering to sell them on weekly payments. The banks are doing a noble work voluntarily and without profit. On the contrary, they are doing it at a loss, in direct opposition to their interests. The Liberty Bonds are a better investment for the poor than the rich because the income from them above a certain amount is taxable."

Beginning with the story of his trip abroad Sergeant Ross told in graphic language of the many adventures which have fallen to his lot since he embarked from the United States to identify himself with the French aviators. His colorful words and the intensity of his eloquence soon had the entire audience under his control. He passed rapidly on and told of the conditions under which the men are trained for the new method of fighting. His experiences in the school for aviation were more than interesting. At the time of his enlistment this country was not at war and he left New York with the determination to become an ambulance driver in Red Cross work. Upon his arrival in France he tried the examination for aviation and passed it successfully, beginning his training immediately.

After being rushed through the preliminary training up to the point where he became proficient in the acrobatics of flying he was sent to the front where he received the final polishing touches under the tutelage of the best instructors in the art. He explained that his work consisted of patrol duty from 5 to 7 o'clock in the morning and again from 4 to 6 o'clock in the afternoon.

As the speaker told of the gripping features of the war, related how the sounds of the various sized guns impress one, told of how a gas attack had looked to him and explained other features of the

GRAND JURY MAKES REPORT

Understood to Have Returned About a Dozen Indictments

The grand jury adjourned yesterday evening and made a report after having been in session five days, Tuesday and Wednesday of this week and three days last week. It is understood that about a dozen indictments were returned, although this is not definitely known because Judge Sparks was in Connersville this morning and has issued no bench warrants. On account of this fact, there are not likely to be any arrests on the indictments before tomorrow.

COURT IS REPORTED EQUALLY DIVIDED

Rumor in Indianapolis Says Two Supreme Court Justices Hold Womans Vote Law Void

OTHER TWO CONSTITUTIONAL

(By United Press.)

Indianapolis, Ind., Oct. 25.—When no decision was handed down on the case testing the constitutionality of the law granting votes to women, it was reported that the court was equally divided—two and two—on the question. The fifth member of the court died recently and the vacancy on the bench will have to be filled. It was believed probable that no decision will be forthcoming until the new associate justice is appointed by Governor Goodrich.

The case is especially urgent as municipal elections will be held early in November and it is still uncertain whether or not women can vote at that time.

SIGNAL HONOR COMES TO DR. DOLPH HUMES

Former Rush County Man is Offered Position as Head of Hospital in France.

HE IS NOT LIKELY TO ACCEPT

A signal honor came to Dr. Dolph Humes of Indianapolis, well known here, who is studying brain surgery under French doctors in the University of Pennsylvania in Philadelphia, when asked by the famous Dr. Frazier to take charge of his large hospital in France. Dr. Frazier is one of the instructors under whom Doctor Humes is studying, and it was in this way that he became acquainted with Dr. Humes's marked ability as a neurologist.

Dr. Humes has not consented to take charge of the hospital for it would mean making his home in France permanently and his family moving there. It is probable that he will remain with the Eli Lilly Base Hospital with which he has enlisted and which is liable to be called to France at any time. It was for the purpose of taking charge of all nerve cases in the hospital that he took the course in the East. The course lasted six weeks and he has now been requested by the doctors in charge to remain for eight more weeks, on condition that he is not called before then, and take additional work. Dr. Humes is the son of John Humes of this county and the brother of Elmer Humes of this city.

ASKS \$125 DAMAGES

Ila E. Chapman today filed suit against Ora Logan in the circuit court for \$125 damages. The complaint alleges that an automobile driven by Mr. Logan struck a cow owned by the plaintiff while it was along the National Road between Gem and Philadelphia, Hancock county, and so badly injured that it is now worthless.

FALLS FROM SECOND STORY

Kathryn Wallace, 3, Falls Through Window to the Ground

Kathryn Wallace, three-year-old daughter of Mr. and Mrs. Frank Wallace, fell through an upstairs window at her home fifteen feet to the ground and suffered a broken left thigh bone. It was considered marvelous that she was not hurt worse because she fell such a great distance, but the fact that she was not cut by the window glass is regarded as even more miraculous. She had run upstairs while playing and accidentally ran against the window, falling through the glass.

MAY INVEST TRUST FUND IN LIBERTY LOAN

Clerk of Circuit Court is Informed by Chief of State Board of Examiners it is Legal

MAY HAVE SOME TO INVEST

George Moore, Jr., clerk of the circuit court, this morning was informed in a resolution adopted by the State Council of Defense and forwarded to him by G. H. Hendren, chief of the state board of accounts, that he had the right to invest trust funds held by him as clerk in Liberty Loan bonds. Mr. Moore said that he held some trust funds, but that not all of them were available for investment just now because they would have to be paid out.

Mr. Moore said, however, that he would determine just how much of such trust funds were available and would probably invest them in bonds as requested by the State Council of Defense. The forwarding of the resolution by the chief of the state board of examiners lends the state's official sanction to the plan and makes it entirely within the law for the clerk to make such an investment.

S. L. TRABUE LIKELY TO BE ADMINISTRATOR

Attorney Will Probably be Appointed County Fuel Head—Recommended by 3 Organizations

MAY HAVE TO PICK COMMITTEE

In view of the fact that Samuel L. Trabue, local attorney, has been recommended to the state fuel administrator, Evans Woollen, for appointment as county fuel administrator, it is considered very probable that he will be named for the position. The County Council of Defense, the officers of the old Chamber of Commerce and the Rush County Business Men's association have recommended the name of Mr. Trabue to the state administrator. Confirmation of his appointment is expected in a few days.

Whenever a county fuel administrator is named, he will take over the duties which were assumed by the fuel committee of three members appointed by the County Council of Defense last Saturday. At that time the defense body did not know the state fuel administrator contemplated any such action. It is suggested by the federal fuel administrator that the county administrator be assisted by a local committee, but it is the understanding here that committee is to be appointed by the county administrator whenever he is named.

274 PLANES BROUGHT DOWN

(By United Press.)

London, Oct. 25.—Two hundred and seventy-four German aeroplanes were shot down in September, according to the official report today. During the same period, the British lost forty-six machines.

SEAL SALE STARTS THANKSGIVING DAY

Campaign Expected to be More Successful Because of Awakened Interest in Red Cross

COUNTY WILL BE THE UNIT

Sale Will be Conducted by Chapter Here Instead of State—Local Campaign Plans

Thanksgiving day, November 29, has been set by the Anti-Tuberculosis society as the day for the opening of the campaign for Red Cross Christmas seals. It is expected that the sale will be more successful than usual this year because of the awakened interest in the Red Cross.

Each auxiliary of Red Cross in the county is asked to co-operate in the sale of seals and to see that the proceeds from the sale are either sent directly to the local Red Cross chapter or used for the prevention of tuberculosis in the locality of the auxiliary which has charge of the sale. If the proceeds are handed into the treasury of the local chapter, the auxiliary will have the right to call for the services of the visiting nurse to that part of the county. Heretofore, the sale of seals has been in charge of the schools over the county.

Locally, the campaign will be carried on much as it has in recent years. The members of the Psi Iota Xi sorority will be asked to take charge of the sale of seals in this city. Dr. W. S. Coleman stated at the Red Cross meeting yesterday afternoon. Letters enclosing one hundred seals will be sent out, asking that one dollar or more be returned. Stands will be stationed at the postoffice every day for several weeks preceding Christmas and the seals will be on sale in a number of stores.

The war is making it necessary that the fund raised by seals for the Anti-Tuberculosis society this year exceed that of former years. It is stated by authorities that the tuberculosis is not contracted in the army so much as that cases in their first stages, which are not recognized as tuberculosis, develop rapidly under the exposure. Too, men who have not known that they have tuberculosis, find that they are in the first stages of the disease when they undergo the army examinations.

Last year, the sale of seals throughout the county, aside from the city, was conducted by the state and the proceeds handed into the state. This year, it is hoped with

Continued on Page 4

SUGAR SHORTAGE WILL BE RELIEVED

New Supply is Expected Within Two Weeks, But It Will Be Mostly Beet Product

PEOPLE THEMSELVES BLAMED

Fearing It Would Be Exhausted, Order Large Quantities—Some Grocers Limit Purchases

Rushville is feeling the sugar shortage only slightly, due to the fact that the local merchants each had a plentiful supply before the shortage was noticeable. With the supply of sugar all over the country becoming greatly decreased, consumers began to fear local dealers would completely run out of the product and for this reason ordered sugar in such large quantities that the supply did become limited.

On this account, the local grocers are limiting the amount that can be sold to each consumer. Some grocers are selling five pounds to a customer while others are selling ten pounds. It was stated by one grocer today that the shortage would not have been felt in this city, had not the people ordered in such large quantities, many of them from more than one grocer.

The new supply of sugar is expected by the grocers in about two weeks time. A part of this will be cane sugar, which the public has been using largely, and a part will be beet sugar which will be used more later. The sale price is ten cents per pound.

In case the demand for the product continues as for the past week the amount allowed each consumer may be lessened, as it has already to some extent. One dealer suggested that if the people had practised to any extent the conservation of sugar which the government is urging, the shortage would never have been felt. Too, it is suggested at this time that consumers use sorghum in as many ways as possible as a substitute.

In the eastern cities the shortage has been felt most seriously. In New York city it is said that the restaurants have had nothing but loaf sugar to supply their patrons, and that two pieces of sugar cost five cents everywhere. That is getting pretty high for sugar for your morning cheer.

Reports from the beet sugar manufacturers in the north and west are that the supply of beet sugar will be the largest for several years, and this should allay all fears of a sugar famine during the winter months.

MAY REOPEN CASES OF FARMERS WHO ARE HINDERING UNCLE SAM

District Army Selection Board Says it is Informed Some Are Holding Their Crops

REFUSING TO INVEST IN BONDS

The clerk of the Rush county army selection board received a letter this morning from the district selection board, urging that the names of farmers who themselves or their sons have been exempted from military service and are holding their crops for higher prices, refusing to help the Red Cross or investing in Liberty Bonds, be reported to the board at once so that their cases may be reopened. The board says that such reports have reached Fort Wayne and that it is anxious to reach men who have been so unpatriotic as to do these things which are hindering the government in its prosecution of the war with Germany. The letter in full follows: "We have been informed that

some farmers in your community who have themselves or whose sons have been granted a discharge, are holding potatoes and other crops for higher prices, are refusing to help the Red Cross and to buy Liberty Bonds. If this is true they are certainly putting their own welfare above that of Uncle Sam. He would suggest that your Red Cross and Liberty Loan committees wait upon these men and give them an opportunity to show their loyalty and willingness to help their country.

"If you will furnish us the names of persons who are able and yet refuse to take advantage of this opportunity we will at once reopen their cases and give serious consideration as to whether or not such facts do not warrant a revocation of their discharge.

"This letter has been submitted to the state conscription agent and meets with his approval.

Heat Your Home Better with Hot Air—Pay Less

See the Estate Hot Storm IN ACTION!

THE WONDERFUL new system of hot air heating that brings the comfort and convenience of a furnace-heated home within everyone's reach will be demonstrated and thoroughly explained by an expert from the Estate Stove Factory at—

Gunn Haydon

Estate Hot Storm

—the Stove with a "Little Furnace" in it

is not a stove, not a furnace, but a heating system that combines the best features of both. It sets in the room like a stove, its exterior looks like a stove, but there the similarity ends. For its interior is utterly different from any stove you have seen—inside it is built like a hot air furnace.

JOY-RIDING IS NO LONGER JOY

Gasoline Prices so High in England That Most Machines Forced Out of Business

NOW SELLING AT \$1.09 GALLON

Taxicabs Forced to Increase Rates Because of High Price of Gasoline

(By United Press.)

London, Sept. 25.—(By Mail)—Joy-riding in the British Isles is no longer a joy. Gasoline prices took another running-board jump today of 18c. The market price is now \$1.09 per gallon.

The newest increase in gasoline is going to hit several millions of the common people. Much of the street transportation is by huge motor buses. Already they are planning on boosting the fares to keep up with the soaring price of gasoline.

The few remaining taxicabs on the streets will be forced to increase their rates. Despite the terrific prices of fuel, their rates of about 16 cents per mile compare favorably with the charges in American cities in normal times. Now, however, they are talking of 20 or 25 cents per mile.

Leading dealers in gasoline explain that the prices were made necessary by the high insurance rates on tank ships. Insurance on these ships is now 18 per cent of their value for each round trip.

Much of the heavy hauling in the down-town streets of London is being done by steam traction engines in the place of motor trucks.

HOGS ARE STERDY WITH RECEIPTS 8500

General Sales Range From \$15.25 to \$16.25 and Top is \$17.10 in Indianapolis.

GRAIN PRICES ARE STRONGER

Indianapolis hog prices were steady today with receipts at 8,500, which is 1,000 greater than yesterday. General sales ranged from \$15.55 to \$16.25 and top price was \$17.10. Cattle were steady and calves 25 to 50 cents lower.

Grain prices were generally higher, corn in Indianapolis advancing two to three and a half cents. Oats was about a half cent higher. December corn in Chicago was up three cents and May, two and a quarter. December oats advanced five-eighths of a cent and May, three-eighths.

MEN AND WOMEN TO AID CONSERVATION

They Are Asked to Make Window Displays Emphasizing Food Conservation Week.

WILL USE THEIR OWN LINES

Township Committees Appointed Last Spring Will be Used in Obtaining Signatures.

With the merchants, ministers, school authorities, and a local representative of the council of defense co-operating in the plans for Food Conservation Week, the week promises to be a great success.

The canvass to the merchants asking them for displays presenting graphically the need of conservation has begun. Each merchant is asked to use his own line as far as possible in bringing the purpose of the week before the people and he will be aided by the charts and posters sent by the advertising committee.

The members of the committee over the county appointed by the Council of Defense early in the spring to aid in war activities, will have an active part in presenting the conservation needs to the people in their townships. The method is left entirely to the members of the committee who may appoint sub-committees. It is not likely that a house-to-house canvas will be made, however, inasmuch as this was done for the Woman's Service League not long ago.

Aside from stands where the conservation cards may be signed in the local stores during the week set aside for conservation, each child in school will be given a card to take home and return signed.

Upon signing a card, each woman receives a card for the window stating she is co-operating with the government, a card bearing "The Kitchen Creed," and a pamphlet containing suggestions for the kitchen and recipes.

DAMAGE SUIT FOR \$10,000

Minnie B. Moore Files Action to Collect Judgment

The case of Minnie B. Moore by her next friend, Charles Gross, against the T. H. E. & L. Traction company, for \$10,000 damages, has reached here on change of venue from Shelby county and placed on file in the Rush circuit court. A suit was filed in Hancock county by M. B. Smith, administrator of the estate of H. T. Moore, husband of Minnie Moore, for damages on account of the death of Mr. Moore, who was killed by one of the defendant's cars. It is set out that a judgment was rendered in favor of the administrator and that it has never been paid. The present suit is to collect that judgment.

The Bewley-Darst Coal company has filed suit in the circuit court against Hiram H. Henley of Carthage on an account, demanding \$137.90.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

The Polk Sanitary Milk Co.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

No Camouflage About It

For nearly four weeks the United States government has had before the people of this nation the second issue of Liberty Loan bonds, asking a minimum subscription of \$3,000,000,000 with which to meet expenses of the war against Germany. Practically every cent of this money is to be expended in this country.

The people of the country despite the appeals of the government, have been somewhat slow in their response. Secretary of the Treasury McAdoo has been extremely frank with the nation in explaining just what the money is wanted for—the equipment and munitioning of the American troops who are being sent to Europe to fight the enemy in the trenches.

There should be no question in the minds of the public about raising this fund. The government must have it, and the government will have it. Voluntary subscription is always far pleasanter than conscription of money, yet there will be no hesitancy on the part of the government if more drastic measures are found necessary.

Secretary of the Navy Daniels in a speech before the Iroquois Club in Chicago last Monday made plain the position of the government—that America's dollars, like America's men, should come willingly to the service of their country but, America's dollars, like America's men, will do their part, whether willingly or not.

"Just as truly as a republic can lay its hand on a young man and send him to France in the trenches," he said, "so it can, and will, if necessary, lay its hand on every dollar in America. Under the law we have the right to do so, but the first Liberty Loan was responded to so cheerfully and so fully that there was no necessity—and there will be no necessity now."

These are strong words, but coming from a responsible head of the government, speaking officially for the government, they should sink deep into the minds and hearts of every American.

(Are we as a nation, so unpatriotic that we will not support our own flesh and blood in this war? Will we permit the German nation not only to outdo us in patriotism but to know that we are not sufficiently interested in our own boys to protect them in every possible way?)

Heaven forbid that we have sunk to such depths! Let every American arouse himself, go forth with renewed energy and courage and help to bring this campaign for the second Liberty Loan to a wonderful, thrilling finish, an oversubscription so tremendous that Germany will know at once that we are a united

people, fighting the fight of civilization and humanity, ever living up to the ideals upon which this government was founded.

The Red Cross

The annual report of the treasurer of the Rush county chapter of the Red Cross discloses a wonderful work well done. It scarcely seems possible that an undertaking of such size should be operated for a year with the small expense of \$115.59, but this is what the figures show and they never tell half truths. This only goes to show how the people of Rush county have responded to the call for help for such a noble enterprise and the manner in which it has succeeded further proves its worthiness.

The treasurer's report revealed a membership of close to four thousand, a record not equaled by many counties the size of Rush county in the state. But the most gratifying thing about the report is the war fund. The report shows that subscriptions to this fund amounted to \$22,157.99, which is remarkable for a county of this size. The chapter still has \$3,229.80 of this fund on hand which may be used for any war relief measures at hand. Only \$456 has been used by the chapter so far.

But the treasurer's report does not represent by any means the accomplishments of the chapter. Hundreds of women have given much of their time to the enterprise for the sake of the boys who have gone out to make the world safe for democracy.

Liberty bonds are practically guaranteed by the government against any decline in value, as they are convertible into any succeeding issue at a higher rate of interest.

Austria's war chickens seem to be coming home to roost, and she has a large flock.

SUGAR SHORTAGE WILL BE RELIEVED

Continued From Page 1

For before the supply of beet sugar is anywhere near exhausted the cane refineries should have their product ready for the market.

So while the present scarcity of sugar makes it necessary to economize in the matter of home consumption, it need be no cause for alarm as with care the supply will last until the fall beet sugar is received by the local retailers.

SEAL SALE STARTS THANKSGIVING DAY

Continued From Page 1

the county working as a whole, far to exceed past records. The division of the proceeds is as follows: 75 per cent is retained by the chapter selling the seals for use in preventing tuberculosis, and the remaining 25 per cent goes to the state and national headquarters for the expenses of advertising and providing the stamps.

PARCELS UNDER 7 POUNDS

Washington, Oct. 25.—Christmas presents and other gifts from home for Americans soldiers in France must be restricted to parcels of not more than seven pounds each, the postoffice department has announced.

Rheumatics No Longer Gloomy

They have used "Neutrone Prescription 99" and found it there with the punch that kills Rheumatism.

Only the skeptical now suffer. The victims of Rheumatism all tell the same story, they have sore, inflamed muscles and stiff joints, they have no ambition or strength and get nervous, cross and irritable, which is not to be wondered at. Thousands of old time Rheumatics are now in the best of health after using "Neutrone Prescription 99."

Its satisfied users are its best advertisers, pretty good advertisers, too.

No matter how little or how much you suffer go and get a bottle of "Neutrone Prescription 99." You will be surprised at the results. Those sore, inflamed joints and burning, aching muscles will disappear, and you will feel fine every hour of the day. Mail orders filled on \$1.00 size.

Pitman & Wilson and leading druggists everywhere, Rushville, Ind.—(Adv.)

There Is a Moral Obligation

which rules every act of our lives. The mature man who does not recognize and meet, in the main, these obligations to society, so far as his ability will permit, is a social outcast.

In a crisis such as our country is now facing, the lines are naturally more strictly drawn, and every man is held accountable for service in her hour of need.

It would seem that the least service that any many could render would be to loan some of his money to his Government at a good rate of interest.

Come in and buy a bond. Tell us how you want to pay for it. Wee will do the rest, take care of all the details and deliver the bond to you without expense to you or profit to ourselves.

On the partial payment plan, you will receive interest on all you have in, and no interest charge will be made by us on deferred payments.

Corn Pain Stopped Quick

Corns Lift Right Off With "Gets-It"
Blessed relief from corn pains is simple as A B C with "Gets-It." When you've been limping around for days trying to get away from a heart-drilling corn or bumpy callus, and everything you've tried has

only made it worse, and then you put some "Gets-It" on and the pain eases right away, and the corn peels right off like a banana skin—'ain't it a grand and heavenly feeling?" "Gets-It" has revolutionized the corn history of the world. Millions use it and it never fails. Ladies wear smaller shoes and have pain-free feet. We old fellows and young fellows forget our toes and feel frisky as colts. Everybody with a corn or callus needs "Gets-It." We will all walk about and enjoy ourselves as we did without corns. Get a bottle today from your druggist, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill. 25c is all you need to pay.
Sold in Rushville and recommended as the world's best corn remedy by Hargrove & Mullin and Frank E. Wolcott.

CHICAGO AIRMAN WAS NOT KILLED

Leonard Reno Having Difficulty Convincing Friends he Really is Not Dead

INJURED IN MAKING LANDING

Allied Observers First Reported he Had Been Killed in Combat With German

By WILBUR S. FORREST
(U. P. Staff Correspondent.)

Paris, Sept. 29 (By Mail)—Leonard M. Reno, of Chicago, American aviator, attached to a French Escadrille, is having difficulty convincing friends and others that he really isn't dead.

During a recent engagement, Reno found himself in his machine over the German lines doing battle with a German plane. The German placed a lucky shot in Reno's gas tank. Several thousand feet in the air without gasoline for his motor and with a belligerent Teuton airman in the vicinity gave Reno no alternative but to make for home. He did a lot of aerial acrobatics and the German gave up the chase thinking his opponent done for. Reno tumbled over the French lines in safety but a clump of trees interfered with a smooth landing and he smashed. Allied observers who saw the entire performance thought the youthful aviator had gone to the "honor roll" and so reported. The news sped its way to Paris where Reno's friends remarked "another good one gone" and proceeded to settle down and mourn his fate.

Chapter two of Reno's accident found him crawling from under his battered machine and making for camp. Then he was given "leave" for Paris where he might recover from his bruises.

Chapter three finds Reno walking into a Paris bank where he had deposited funds.

"I would like to cash a check," he said as he presented himself at the paying teller's window.

French banks have the habit of always looking at the books before they cash checks. The customer always waits.

"I'm sorry," said the teller after consulting the bookkeeper. "We can't cash this check today. You see, Mr. Reno is dead. All his funds will be sent back to his father in Chicago. This check will have to wait."

Like Mark Twain, Reno refused to believe the story or at least thought it was exaggerated. Luckily he happened to know the manager of the bank who confirmed his story. The check was cashed.

Practically all of the young birdman's friends in Paris had heard of his "untimely death" and were startled in turn when Reno met them, proof in the flesh and blood, that he was not a dead one.

TWO QUARANTINES LIFTED

Diphtheria Epidemic is Gradually Improving—No New Cases

The fact that no new cases of diphtheria have been reported and no deaths caused from it for the past three days makes it appear as if the quarantine may be raised the first of next week. A family was released from quarantine yesterday and another today after the homes were thoroughly fumigated by the visiting nurse. Yesterday the home of Mr. and Mrs. Charles Gardner was fumigated and today the home of Ed Pea was released from quarantine. In all probability, school will be opened on Monday.

Amusements

The plot of "The Question" in which Alice Joyce and Harry Morey appear at the Princess this evening turns on the stroke of a pen which might have barred the leading man and woman of the story from the gates of society. It is a Blue Ribbon Vitaphone Feature showing five reels. "A School for Husbands" is the title of the Lasky Paramount production in which Fannie Ward appears at both performances.

SECOND DEATH IN HOME IN FIVE WEEKS

Mrs. Winifred Joyce, Age 92, Expires Following Demise of Grandson Ambrose

HOUSE IS UNDER QUARANTINE

Mrs. Winifred Joyce, age ninety-two years, widow of the late Austin Joyce, died yesterday afternoon at four-thirty o'clock at the home of her son, Tom Joyce, in West Second street. The funeral services will be private because the house is under quarantine. A child of Mr. and Mrs. Joyce has not fully recovered from diphtheria. The death is the second in the Joyce home in five weeks. Ambrose Joyce, grandson of the deceased and son of Mr. and Mrs. Tom Joyce, having died with diphtheria Sept. 16. His death was the first in the city during the present epidemic.

Mrs. Joyce is survived by four sons and two daughters, William, Tom, John F. and Henry and Sister Mary Joyce and Mrs. Anna Runyon of Muncie.

The funeral will be held at the late residence tomorrow afternoon at two o'clock, conducted by the Rev. M. W. Lyons. Burial will take place in the Catholic cemetery.

Days Pickings

W. A. Posey, former clerk of the circuit court, living west of the city, underwent a second operation in a Cincinnati hospital yesterday and reports today were that his condition was serious, but that he was expected to recover. His daughter, Miss Jessie Posey, and son-in-law, Chief of Police Yakey, as well as Dr. D. H. Dean of this city were present at the operation. Mr. Posey underwent the first operation eight days ago.

The twelve Red Cross directors re-elected at the annual meeting yesterday and the townships they represent are as follows: Jesse Henley, Ripley; Sabert Offutt, Posey; E. B. Lowden, Walker; David O. Alter, Orange; Wylie L. McKee, Anderson; A. L. Gary, Rushville; O. M. Siler, Jackson; B. B. Benner, Center; Dr. C. L. Smullen, Washington; William Martin, Union; Roscoe Titsworth, Noble; William Fisher, Richland.

Tax collections at the county treasurer's office yesterday fell off as compared to other days this week, the total paid amounting to only \$7,014.33. Only nine more days of the fall tax paying season remain.

The new roof on the court house has sprung a leak. A discoloration on the wall decorations of the third floor was noticed after the snowfall this week.

The infant child of Mr. and Mrs. Adam Buckley of Manilla died yesterday and burial took place yesterday.

Greensburg—Charles Collins who claims to be the champion corn husker of this section of the state, averages 100 bushels a day.

Kendallville—William T. McCoy was fatally injured when he jumped from a wagon when his team was running away.

Bedford—Irving Pendleton, 14, was severely injured when he lost control of his wheel while coasting down a steep hill.

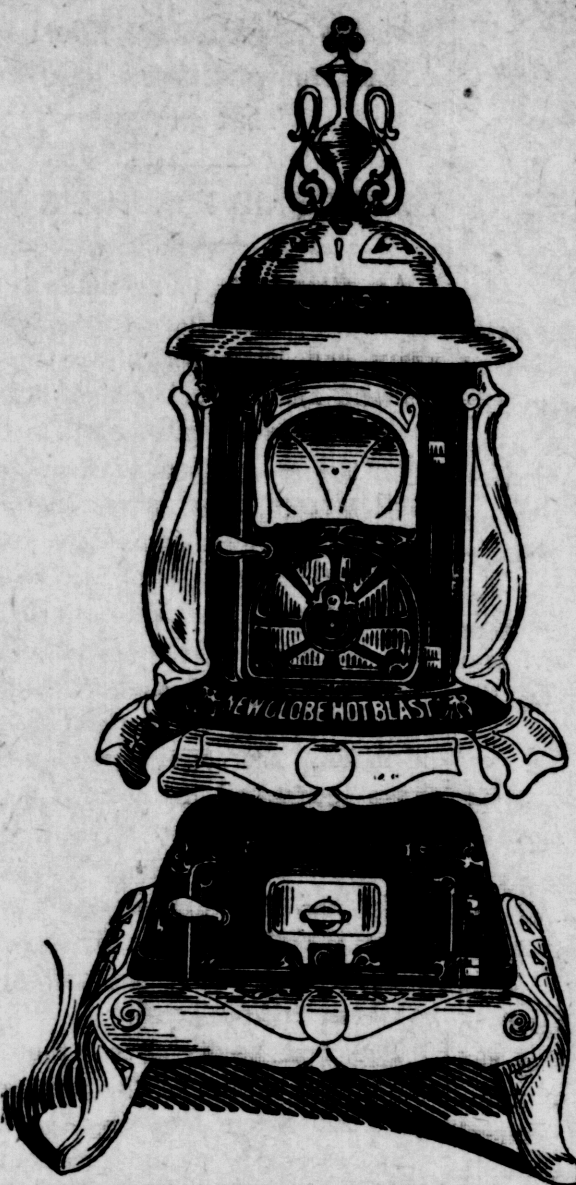

Relieves Stiff Neck

When you wake up with a stiff neck or sore muscles, strains or sprains, use Sloan's Liniment. No need to rub; it quickly penetrates to the seat of pain and removes it. Cleaner than musky plasters or ointments. It does not stain the skin or clog the pores. Always have a bottle handy for rheumatic aches, neuralgia, soreness, bruises and lame back. In fact, all external pain. Generous sized bottles at your druggist, 25c., 50c., \$1.00.

Sloan's Liniment

Here's a Heater That—Eats Smoke

Burns Cheap Coal!
Holds Fire!
And Saves You Money!

Here is a heater that burns the smoke and gases, cuts your coal bill, holds fire for two days, warms the floor and is an ornament in any home—your home.

You know, some folks never think to look into a heater's construction, but that is a most important thing to consider. Study the construction of the GLOBE HOT BLAST. Then you will see why this Globe will return in comfort, fuel-saving, heat and everlasting satisfaction the few dollars you invest in it.

Society

Mrs. Allen Blackledge, formerly Miss Inez Stager, was the guest of honor at one of the most delightful social affairs ever enjoyed by the members of the Psi Iota Xi sorority when Mrs. Donald Alexander entertained at luncheon yesterday at her country home west of the city. The sorority colors of blue and gold were prettily carried out in the place cards, dainty little hand painted affairs on which the chrysanthemums were tied with a blue bow, and in the lovely bouquets of chrysanthemums on each of the tables, where the 23 guests were seated. The luncheon was served in four elegant courses. A shower for the recent bride was a feature of the afternoon when numerous gifts of all kinds were given to her and the sorority presented her with six silver teaspoons. The guests were entertained during the remainder of the afternoon with knitting and musical numbers.

The meeting of the Wednesday Afternoon club with Mrs. Lon Kennedy yesterday afternoon was in the form of a Halloween party. The living room, lighted with pumpkin faces made a pretty setting for the ladies, who spent the pleasant hours over knitting and needlework. Banks of autumn leaves adorned the walls of the dining room. Another feature, which added to the novelty of the affair was that the dishes used for the luncheon were heirlooms, being over one hundred years old. About eighteen members of the club and three guests, Mrs. Joe Miller, Miss Elgie Thomas and Miss Margaret Mahan enjoyed the delightful afternoon. Mrs. Sam Innis will entertain the club Halloween night at her home in North Perkins street.

Mrs. Britt of Glenwood was the hostess to the members of the Sorosis club, Tuesday afternoon. Two guests, Mrs. Charles Brooks and Mrs. Otto Cameron were also in attendance. The roll call was responded to by quotations from Dickens. Mrs. Murry read an inspiring paper on "Dickens, The Man and Author" and Mrs. Powell gave a review of her favorite book. The hostess served a dainty luncheon, in which the color scheme of pink and white, the colors of the club, were carried out. Mrs. Murry will entertain the club, Tuesday, November 13.

Mrs. J. P. Frazee and Mrs. A. L. Riggs gave a pitch-in supper last evening at the home of Mr. and Mrs. Frazee in North Main street when the guests were Mr. and Mrs. Charles W. Ross and sons, Lieutenant Raymond Ross and George Ross of Crawfordsville, A. L. Riggs, Guy Abercrombie and daughter, Laurett.

Mrs. Herman Tompkins was hostess to two tables of the Wednesday Afternoon Bridge club yesterday at her home in East First street. Mrs. T. W. Betker was the only guest. At the close of the afternoon, Mrs. Tompkins served refreshments. Mrs. Clarence Cross will entertain the club in two weeks.

Mrs. Carl Gunning is entertaining a number of friends tomorrow afternoon at her home in West Tenth street honoring Mrs. George Hogsett, a recent bride. The affair is to be a shower.

With the Fingers!

Says Corns Lift Out Without Any Pain

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freestone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freestone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This new drug is an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heeled footwear is putting corns on practically every woman's feet.

A well planned surprise was successfully carried out last night, when a number of friends gathered at the home of Mrs. Sylvester McKibben, near New Salem, in celebration of her birthday. Masses of autumn flowers adorned the prettily laid table, where the elegant supper was served. The Rev. and Mrs. M. F. Iliff, Mr. and Mrs. Sylvester Colvin, Mr. and Mrs. Enos McKibben, and family of Arlington, Mr. and Mrs. John Murphy and son Gilbert, Miss Mary Colvin and Mr. and Mrs. Allen Barnes were among the guests.

Miss Helen Shaffer of Springfield, Ohio, and Charles Bryant of Wabash, Ind., were married Saturday in Springfield. The wedding is of interest here, inasmuch as the bride has visited here frequently. Miss Belma Clark of this city visited in Springfield for a week preceding the wedding and was a guest at a number of pre-nuptial affairs. Russel Skipton, who is in Columbus, Ohio, in school, was also a guest at the wedding.

An announcement of interest here was made at a tea given by Miss Lola Jackson of Muncie when the engagement of her sister, Miss Sarah Jackson, to Ray Clark of Muncie was made known. The wedding will take place tomorrow. Miss Jackson is well known here, having visited friends in this city a number of times.

Mrs. B. O. Simpson entertained several tables at Bridge and Rook, yesterday afternoon at her home in North Main street, honoring her house guests, Mrs. A. E. Norris of Belleville, Kan., and Mrs. Warne Carmichael of St. Louis, Mo. The hostesses served a dainty two course luncheon.

Mrs. Clyde Deputy entertained with an informal Rook party this afternoon at her home in Milroy. The guests of honor were Mrs. Lampton, Mrs. Dora Jackson, Mrs. John Frances, and Mrs. C. S. Hoagland. A dainty salad course was served by the hostess.

The Rebekahs will meet in their regular session tomorrow evening at 7:30 in the I. O. O. F. hall. The degree staff will meet for practice and business of importance will be settled. A large attendance is desired.

The Ladies Musicales will meet Monday afternoon at 2:15 in the assembly room of the court house and every member is urged to be present.

RESIGNS TO HELP FUEL ADMINISTRATOR

John P. White, President of United Mine Workers of America, Quits Post Today

FRANK J. HAYS IS ELECTED

(By United Press.) Indianapolis, Ind., Oct. 25.—John P. White, president of the United Mine workers of America, today presented his resignation at a meeting of the board of directors. He announced that his work as advisor to the federal fuel administrator would take up all his time. Frank J. Hays, vice-president, was elected president and John L. Lewis, former organizer, was made vice-president. Both were formerly connected with the Illinois organization. In accepting the office Hays advocated industrial peace and urged the miners to be loyal to their country in the present crisis. White stated that he had long considered this step and recent accomplishments of the organization permitted him to make the move at this time. NAMED FAYETTE FUEL HEAD (By United Press.) Indianapolis, Ind., Oct. 25.—E. P. Hawkins was today named county fuel director for Fayette county.

MAY GET A CHANCE TO MAKE ARMY BAGS

Rushville Women Make Effort to Get Government Station Here For That Purpose

TO GET PAID FOR THEIR WORK

An attempt is being made to have a station placed here for making the army bed bags which are in great demand and are being made by women in the state. Mrs. A. L. Stewart, upon the suggestion of a number of local women, has taken the matter up with the quartermaster general. The first request from Mrs. Stewart was refused because the distance of Rushville from Jeffersonville made the freight higher than that to other places where the bags could be made. An offer was made by those interested locally to meet the same requirements as the other towns where the bags are being made and to furnish bond for all material sent out from Jeffersonville. A reply from this suggestion has not been received yet. The bed bags, like the army shirts, are a part of the army equipment which are made by the women who receive a small payment for their work. It is thought that the price paid for making the bags is about ten cents a piece. The station is run on practically the same principal as that for army shirts. It will be remembered an attempt was made recently to have Rushville as a center for making the shirts. The making of the bags is very simple. They are used as straw ticks by the soldiers, made with one seam down the center, sewed at each end, with a faced opening in the center where the straw is put in. They are made of very heavy material.

BOLD BANDITS ESCAPE

(By United Press.)

Indianapolis, Ind., Oct. 25.—Two bandits shortly after noon today held up the auditor of the Washington hotel on the 17th floor of the building and robbed him of \$2,000. The robbers ran to the elevator and forced the operator to take them to the main floor, making their escape.

The will of the late William J. Kirkpatrick, who died a few days ago, was admitted to probate in the circuit court today. He bequeathed all of his property, both real and personal, to the widow, Louisa E. Kirkpatrick. The will provides she shall be executrix, but is said she will not qualify.

BOND TOTAL GAINS ANOTHER \$200,000 IN TODAY'S REPORT

Continued From Page 1

world war his audience was literally spellbound.

Conditions in France, stories of the extreme devotion of the French to the ideal for which the war is being waged, tales of the poverty, the gloom, the suffering and the

uncomplaining sacrifice of our great ally all were spoken of. It was in the second part of his talk that the audience really came to know what this country must do. Stories of the immense sacrifice which France has made, sacrifices that cause our own to shrink to insignificance when compared with them, made the whole assembly feel that no labor, no expenditure of money and lives can ever equal that of France.

The stirring appeal from the lips of the young orator probably awakened more real patriotism than any single thing since the declaration of war. So earnest were his words, so evident was the depth of love he bears for his country that no one who heard him could feel quite the same toward the war as he had before. War reliefs, campaigns which become almost monotonous in this country took on a new and brighter

meaning when explained by the young aviator. The good work that is accomplished by only a few dollars was brought out and everyone was asked to do his share toward winning the war.

YOUNG SPAINARD HAS MAN'S JOB

Is in Charge of Relief Work Being
Conducted by His Country in
Belligerent Countries.

TO AID POLISH SUFFERERS

He is But 22 Years Old But Goes to
Task Like an Old Timer—Force
is Enlarged.

(By United Press.)

Washington, Oct. 25.—He's only 22 years old—Senor Don Garcio Pelayo Clay, but he is holding down a man-sized job and getting away with it.

Senor Clay came to this country shortly after war was declared, to take charge of the relief work being conducted by the Spanish embassies and legations in belligerent European countries and the United States. His chief task is to establish connections between prisoners in war camps and and sufferers in the over-run districts and their more fortunate relatives in this country.

"A prisoner of war in a Russian camp gives us the name and address of his relatives in America. It is forwarded to the embassy here at Washington and we locate the person if possible. Then, if desirable, we transmit whatever money they give us to the sufferer over the seas," explained Senor Clay.

An idea of the amount of work being done by the relief branch of the Spanish embassy here can be obtained from the statement that in August alone more than \$26,000 representing the remittance of 900 donors was dispatched to Polish war sufferers in Russian territory occupied by Germany.

"Our work has but begun," said Senor Clay, "In Poland, Serbia, Roumania and Palestine we are busily engaged forwarding money to war sufferers and carrying back news to relatives in America.

"During this month our remittance to Poland will exceed \$1,000. The gifts range from \$5 to \$50 and even \$100. The number of small remittances are surprisingly large—and most of the donors can not afford the sacrifice.

The "charity work" of the Spanish embassy here has grown so large during the past month that removal of the charity headquarters has become necessary. The force of clerks has also been enlarged.

SONGS OF THE SAMMIES

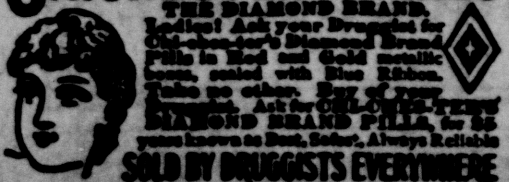

(By United Press.)

Paris, Oct. 5 (By Mail)—When General Sibert, in a burst of enthusiasm named the "Clemenceau Battalion" in honor of the well known French statesman after the latter had addressed the troopers, he started something. There is a movement on foot here today which may result in certain American regiments being known as the "Washington Regiment" the Lafayette Regiment," "Rochambeau Regiment" and probably the "Wilson Regiments," "Roosevelt Regiment" etc. If the American army chiefs adopt the plan one French writer suggests that it will fire the units so named to a fighting enthusiasm that will live in world history. Regiments with more numbers for identification can never have the sentimental interest in making a great reputation for a unit as would be inspired by fighting for an honored names, the writer believes.

We make this One-Week Offer to Housewives here who have not had this Cooker. The cost of Aluminum has doubled in the last few years. Cooker prices have enormously advanced. But, in fairness to those who missed it last year, we repeat this Dollar Offer.

Cookers Supplied To a Million Homes

We have supplied Quaker Cookers to a million homes at very little prices. But the cost has advanced until our offer is almost impossible.

But grocers tell us that many housewives missed our former offer. They are using Quaker Oats and Pettijohn's, and they want this Aluminum Cooker. In fairness, they should have it.

So we renew this offer for next week only. It applies only to housewives whom we have not supplied already. It applies only to users of Quaker Oats or Pettijohn's, or both. It means twice as much as this Dollar Offer meant two years ago. Get this Cooker next week if you are entitled to it. You owe that to yourself.

Double Cooker
Pure Aluminum
Extra Large and Heavy
Cereal Capacity 2 1/4 Qts.
A Lifetime Utensil

To Rightly Cook Two Famous Dishes

We want every user of Quaker Oats and Pettijohn's to cook these cereals rightly. Right cooking makes them doubly delightful. It keeps the flavor intact. It makes them easy to digest.

This Aluminum Cooker has been made to order to meet exact requirements. It is extra large, so little or much can be cooked in it. It is extra heavy, made to last a lifetime.

This Cooker will next week cost you only \$1, if you send us the sales slip we ask for. This is a costly offer. And we simply want to know, before sending the Cooker, that you are a Quaker Oats or Pettijohn's user.

This Offer One Week Only

Get a sales slip from your grocer showing the purchase of three packages—in any combination of Quaker Oats or Pettijohn's. Send us \$1 with the sales slip and we will mail the cooker by parcel post. Sales slip must be mailed next week. This offer applies to this vicinity only.

The Quaker Oats Company, 1708 Railway Exchange, Chicago

Quaker Oats Which Saves You 75%

Measured by food value, Quaker Oats costs one-fourth as much as the average mixed diet. So each dollar you spend for Quaker Oats saves an average of \$3. Oats stand supreme among grain foods, in nutrition and in flavor. They form a complete food, supplying every need. As an energy food their fame is proverbial.

Make this the chief breakfast dish. Meat and eggs cost five and six times as much. Also use Quaker Oats in bread and muffins, pancakes and cookies. No other food is so economical.

Use Quaker Oats because of the matchless flavor. It is made of queen grains only—just the big, plump, luscious oats. We get but 10 pounds from a bushel. Yet it costs you no extra price.

Pettijohn's The Laxative Luxury

Pettijohn's Breakfast Food is soft rolled wheat, hiding 25 per cent bran flakes. It is a savory dainty of which no one ever tires. And it supplies the needed bran. Bran is Nature's laxative. Everybody needs it. Most folks would feel better if they ate it every day.

Fine foods clog the system. Bran supplies the needed roughage. Every doctor, as you know, urges its use, to avoid the need of drugs.

Try it one week. Note the good spirits which result. Never again will you return to a branless diet.

Pettijohn's Flour is another bran dainty. That is 75 per cent white patent flour and 25 per cent bran flakes. Use like Graham flour in any recipe. With these two products every meal can include some bran-made dainty.

HELPING TURN OUT RADIO OPERATORS

Two New England Youths Establish
Free School to Train Wireless
Operators.

AUTHORIZED BY GOVERNMENT

Increased Merchant Marine Makes
Growing Demand For Operators.
Forty in Class.

(By United Press.)

Washington, Oct. 25.—Two New England youths decided some time ago that the United States needed a free radio school to train wireless operators for our new merchant fleet. And so, without making much fuss about it, they went ahead and established the school without cost to the government.

Today, these young men are training a class of forty in the mysteries of the Hertzian waves. The graduates of the free six months course are all pledged to join America's mercantile forces as wireless operators. Secretary of Commerce Redfield, traveling through England on his vacation "discovered" the lads and has commended them in an official report.

Arthur Hatcheller, a radio inspector in Boston, and Walter J. Butterworth, a clerk in the same office, were working for the Navigation Bureau of the Commerce Department when the national crusade for a huge merchant marine began. "If we need thousands of ships, we will need thousands of operators," said Hatcheller. "How are we going to get them?"

He interested Butterworth in the proposition. They made their plans—got an official O. K. on them and then went ahead. They borrowed camp chairs from a local steamboat company, dragged out an old black-

board from a school basement, obtained instruments and testing machines without cost by appealing to the patriotism of leading radio companies and by sheer grit and perseverance corralled all the other requirements for their school—including office space.

Then they sent out a call for pupils. By the score they responded. Result: a growing corps of wireless operators for the American merchant marine, trained free of all charge.

PROMINENT WOMAN HURT

(By United Press.)

Washington, Oct. 25.—Mrs. W. B. Colver, wife of federal trade commissioner, was knocked unconscious Wednesday afternoon when her automobile collided with a motor car driven by Mrs. E. N. Hurley, wife of the chairman of the United States shipping board. Four trolley cars figured in the crash also, with a total list of twelve persons injured. Mrs. Colver's injuries are not serious.

TAKING CARE OF SAMMY BIG JOB

Average Trooper Knows Little or Cares Less of How Supplies Reach His Camp

EVERYTHING HAS ITS PLACE

Lines of Communication Form One of Greatest Things Necessary For Army

(U. P. Staff Correspondent.)

American Field Headquarters, France, Oct. 10 (By Mail)—Stretching back overland to the sea the American line of communications is a constantly swelling artery vital to the life of Sammy training here in the field. Sammy knows he gets 18 ounces of white bread every day but he doesn't know much about where that bread came from. He gets clothing from the quartermaster and his rations from the company mess. If the supply is plentiful and the quality good Sammy doesn't bother his head much about how it was brought up to him. But the auxiliary people know.

The bakers know they stood out in the open all day and tended the field-ovens far from the infantry training fields, to make the bread. They unloaded the big sacks of Minnesota flour from the railroad trucks that run right into the middle of the bakery. And they carefully slashed the loaves right down the middle to let out the gas before putting them in the ovens.

That little slashing operation looks simple, yet it was decided on only after hours of study by the officer in charge who wanted to save room in the bread cars. Formerly each loaf was slashed four times across the top. When the crust formed intersections of these slashes raised up about an inch and the bread transport involved a great many wasted inches of space in the car. The new slash is just as effective in releasing the gas and it saves one half of the wasted space.

Suppose a grenade goes off prematurely in a practice trench and Sammy's arm is gashed to the bone by a fragment. The surgeon at the hospital bathes the wound with antiseptics, binds it with a special kind of bandage and puts the patient to bed in a comfortable hospital cot.

Sammy thinks of his own rough luck in being wounded but takes it as a matter of course that all that medical paraphernalia is right on hand all these miles from home.

Day by day that line of communication is growing, shooting out new spurs to supply the branches of service scattered along both sides of the trail. The bases are bulging beyond their original dimensions but even today the whole system is only in its infancy.

General Pershing and his staff have visualized a vast enterprise which has to be run on a military business basis in order to feed and clothe the great army that will be in France when we go into the trenches. Shells will come up along these lines and be pushed forward to the guns and the thousand and one kinds of supplies and equipment that a great army constantly needs must be kept moving in undiminished quantity.

CHILD SPECIALISTS GOING TO FRANCE

Third Detachment of Welfare Doctors and Nurses Will Sail Before End of Month

GREAT NEED FOR THEM SEEN

Moorhaven, Fla., Oct. 25.—Mrs. sponse to urgent cable requests from Major Grayson M. P. Murphy, head of the American Red Cross Commission to France, a third detachment of child welfare doctors and nurses will sail for France before the end of this month.

Physicians and child specialists to be included in the party are Dr. J. H. Mason Knox, Jr., of Baltimore; Dr. John B. Manning, of Seattle; Dr. Florence Chapman Child, of Philadelphia; Dr. Edmund J. Laube, of Portland, Ore.; Professor of Pediatrics at the University of Oregon; Dr. Ethel Lyon Heard, of Galveston, Tex.; Dr. Helen

FLORIDA'S WOMAN MAYOR IS WORKER

Besides Managing Town of Moorhaven She Runs a Farm of Five Thousand Acres

DOES NOT TALK SUFFRAGE

She Is Interested in Her Land and As A Result Produces Some Large Crops

(By United Press.)

Washington, Oct. 25.—In re-George Horwitz, the Mayor of Moorhaven Florida, the only Mayor of her sex in the United States, when she is not working at being mayor runs a small farm of 5,000 acres, where she raises nearly every known species of vegetables, and as a side line hogs.

Mrs. Horwitz has worked from four o'clock in the morning until 11 o'clock at night on her farm steadily through the summer season, and is convinced that there isn't a thing a woman cannot do.

She does not look like a woman who has been slaving in the fields all day and managing a small town at the same time. She is blond, pretty and young. "I am more than thirty, however," she said. Being Mayor one would think she would be willing to talk about the women in politics. "That is the last thing I want to talk about," was her surprising answer when the question of woman's suffrage was brought up. "Don't ask me what I believe for I don't know a thing about suffrage. All my life I have been busy doing the things I wanted to do and haven't had time to think much about political enfranchisement."

"Not that suffrage is not coming," she added "But in my mind the best argument for it is the evidence women are now giving in all sorts of war work. The work that women have done in the war relief agencies and the work they do in the juvenile and municipal courts is proof enough for me that any woman is as good and as capable as any man."

Getting off the question of votes for women Mrs. Horwitz dropped a few hints for the modern farmer. "The old time farmer" she said "didn't know when to plant or where. He simply dropped the seed into the same ground season after season. Nowadays anyone can learn to farm by doing as the Department of Agriculture tells you to. I have four large tractors and I work all day as long as my men do. And then of course I work at night too. If the government would make possible the development of other waste lands in this country—as these drainage canals have made them available in Florida—the feed problem would shrink in proportion."

Mrs. Horwitz has been made a member of the Governor of Florida's staff with the rank of Major. She is also on the State Committee on National Defense, and is preparing to organize a Home Defence organization.

"The job being Mayor is a new one and I like it," she said. I have to hand out justice for all petty offenses, for I sit as town magistrate in the town, and that, with managing the councilmen, is a full job in itself.

When she work in the field Mrs. Horwitz, like all the other farmerettes discards the skirts and takes to trousers.

H. Woodroffe, of Ocean Park, Cal.; Dr. Dorothy Child, of Philadelphia; Dr. O. H. Sellenings, of Columbus, O.; and Dr. Hugh Heaton of Melstone, Mont. There will be also nine or ten Red Cross Nurses.

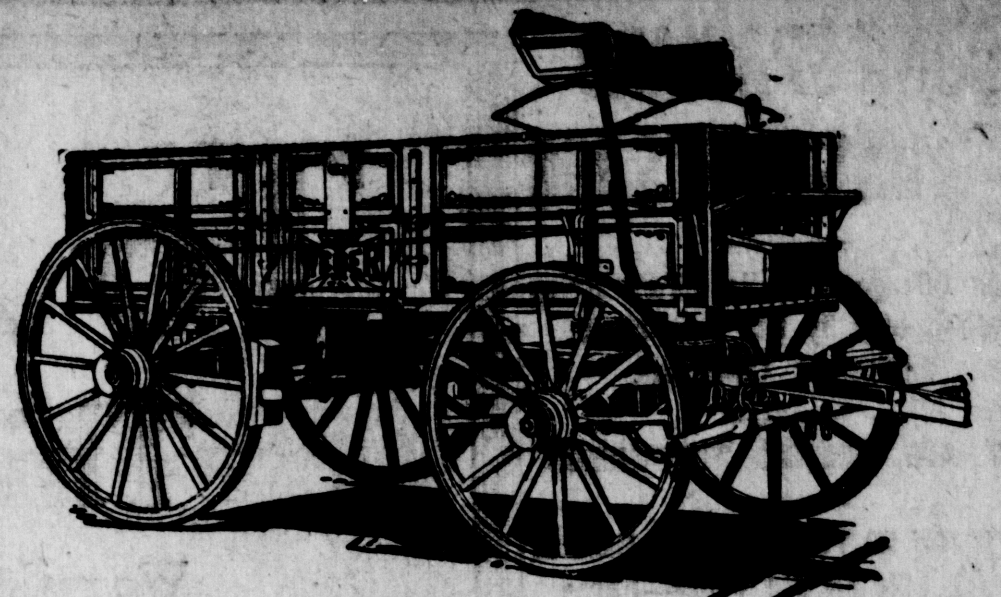

"The demand for children's specialists," Major Murphy has just cabled, "far exceeds expectations. The original unit is now serving three different localities to meet the urgent demands for help. These calls come from the devastated area and elsewhere in France."

Relief from Eczema

Don't worry about eczema or other skin troubles. You can have a clear, healthy skin by using a little Zemo, obtained at any drug store for 25c, or extra large bottle at \$1.00.

Zemo generally removes pimples, blackheads, blotches, eczema, and ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

The E. W. Ross Co., Cleveland, O.

Come In and See the Weber Here Are More Big Points

YOU will be interested in looking over the hound, hub, skein and skein box construction. On the Weber the hounds are of straight-grained oak; on the front gear they are of the same type, wide and roomy in the rear, to give the reach ample support in turning short. They are mortised and well braced with solidly welded steel. Hubs are of white oak only, turned, shaped and bored accurately for the skein boxes. Skein box is made so that a grease chamber is formed. A solid collar keeps the oil away from the wood of the hubs. Mud and sand cannot get into the axle and the skeins cannot wear into the skein boxes. That means long life and good service.

These are all reasons why you should have a Weber wagon—that is— if you want a wagon for real work. Come in and let us show you.

Sign Your Country's Food Pledge—This Is It:

CUT OUT CAREFULLY ALONG THIS LINE

Pledge Card for United States Food Administration

If You Have Already Signed, Pass This On To a Friend

TO THE FOOD ADMINISTRATOR:

I am glad to join you in the service of food conservation for our nation and I hereby accept membership in the United States Food Administration, pledging myself to carry out the directions and advice of the Food Administrator in my home, in so far as my circumstances permit.

Name _____

Street _____

City _____

State _____

There are no fees or dues to be paid. The Food Administration wishes to have as members all of those actually handling food in the home. Anyone may have the Home Card of Instruction, but only those signing pledges are entitled to the Membership Window Card, which will be delivered upon receipt of the signed pledge.

Cut this out carefully and send it to the Federal Food Administrator, Room 20, State House, Indianapolis, Indiana.

Do not send it to Washington. Send it to Indianapolis.

This is the same as the pledge card, and just as official. Do not sign this if you have signed a pledge card. Do not sign a pledge card if you sign this.

When you send this in, with your name and address, you will be sent free: (1) a handsome three-colored window membership card to show that

you are trying to live up to the suggestions of the food administration at your house; (2) an interesting and valuable book of suggestions and recipes, entitled "Ten Lessons on Food Conservation"; (3) a wall card to hang in your kitchen, entitled "The Kitchen War Creed," to show you how you can help win the war in your own kitchen if you wish.

And the food administration will mail you other helpful things later, perhaps.

To sign this card is a patriotic privilege. It will make you a leader

in your neighborhood in the task of saving certain foods for our soldiers and our allies.

Sign this card. Show Mr. Hoover you are with him. Hang out your window membership card when it comes. Read the interesting literature that will be sent you.

The government is not going to ask for your canned goods or for anything else, because you sign this card. You incur no obligations. You merely promise to study the problem of "food saving to win the war" and do what you can to help.

Can You Guess What We Are To Pay for Butter Fat

Week Beginning October 22?

The Want Ad Column Should Interest You Every Day

WAR BRINGS SKIM MILK TO ITS OWN

With Watered Milk Gone the Skimmed Variety is Admitted to Its Rightful Place.

VERY USEFUL IN COOKING.

As Tissue Builder it is Equal to Whole Milk But Not an Energy Producer.

Indianapolis, Oct. 25.—State Food Commissioner Harry E. Barnard stated today that owing to the war, skim milk is coming into its place as a cheap and nutritious food. He said:

"After many years of banishment skim milk is again a legal food in New York. Well enforced food laws have stopped the sale of watered milk so that the legislature felt justified in removing the ban on skimmed milk and admitting it to its rightful place among our best foods. The only difference between skim milk and whole milk is the butter fat. Quart for quart it furnishes the body with slightly more protein and milk sugar than whole milk does, and the same quantity of mineral water. As a tissue builder it is equal to whole milk but it is not nearly as good as an energy yielder. The foods which produce energy are the cheaper foods, and cereals and fats. The tissue building materials are the more expensive foods like meat and eggs. Skim milk therefore takes the place of an expensive food.

"Skim milk finds many valuable uses in cooking. If used in place of water in making bread it adds as much protein to every pound loaf as there is in an egg. A cupful of breakfast cereal cooked in three cupfuls of skim milk instead of three of water adds much protein to the dish as there is in three eggs. Vegetable soup made with milk is far better balanced than when the soup is made with water.

"The following method is suggested by the government food experts as a means of utilizing skim milk.

"Chop the raw vegetables or cut them into small pieces. Put them with the skim milk into a double boiler and cook until the vegetable is tender. The mixture can then be thickened and enriched as described above. By this method no part of the vegetable is thrown away and the liquid of the soup, instead of being part milk and water, is all milk. A soup so made, therefore usually has about twice as much protein as that made in other ways, and has the additional advantage of a particularly good combination of mineral substances for milk is rich in calcium and phosphorus, and the vegetables are rich in iron.

"In making these soups use is made of many of the parts of the vegetable that are ordinarily thrown away, namely the outer and tougher leaves of lettuce, which has a higher iron content than most other vegetables; the tops of celery and even the tops of young onions; small quantities of cooked vegetables left over from other meals may be utilized in these and in other kinds of soup.

"If in making these soups the vegetable is chopped finely in the meat grinder, they need not be strained before being served. If the vegetable is not so chopped, the soup may be put through an ordinary strainer or such vegetable as carrots or potatoes may be cut into slices and left in the liquid, in which case the dish resembles a vegetable chowder. These soups may be thickened with stale bread."

GERMANY HELPS ALLY

(By United Press.) London, Oct. 25.—Germany has finally come to Austria's aid and started with her ally a powerful offensive on the Italian front. Berlin claimed that the German troops have captured foremost positions in the section where the Italian drive in August pressed the Austrians back. For many weeks reports have declared that Austria was pleading with the kaiser to send aid to oppose the steady Italian advances.

Princeton—The 6-year-old son of W. T. Roberts was cheated out of a five dollar gold piece by a "meanest man," who gave him two bright dimes for what the little boy thought was a penny.

BOND TOTAL GAINS ANOTHER \$200,000 IN TODAY'S REPORT

It is Still \$144,000 Short of County's Maximum Quota With Two Days Left

CAMPAIGN ENDS SATURDAY

Liberty Loan Meeting Held Yields \$25,000 in Subscriptions and New Salem, \$3,000

SPLENDID ADDRESSES HERE

Frederick Matson Discusses Bond Issue and Lieut. Ross Gives Experiences in War Zone

Rush county's subscriptions to the Second Liberty Loan of 1917 today mounted to approximately \$800,000 following celebrations on Liberty Loan day yesterday, but the grand total is still \$144,000 short of the maximum quota for the county, which the local committee had visions of reaching today.

However, prospects were reported as being brighter than they were the first of the week and there is a probability that the maximum of \$944,000 will be reached by tomorrow, if sales that are in prospect are made before the close of business Friday. Saturday is the last day of the campaign and the committee is anxious that Rush county not fall short of what it is expected to do.

Today's subscriptions jumped \$200,000 over the total of yesterday, about \$28,000 of which was realized through the Liberty Loan meetings held in the county on Liberty Loan day. Subscriptions at the meeting at the Graham Annex auditorium here last night yielded approximately \$25,000 and about \$3,000 was subscribed at the Noble township meeting at New Salem yesterday afternoon.

Douglas Morris addressed the meeting at New Salem and the Rev. Mr. Iliff, pastor of the M. P. church there, introduced the speaker and made a few brief remarks. The school auditorium was crowded with people, most of whom were women and children. Many women subscribed to the Liberty Loan and what men were present came prepared to do their bit by loaning Uncle Sam some money. School children provided some music and there was also music by an orchestra.

Following the two splendid addresses by Lieut. R. T. Ross of the French aviation corps and Frederick Matson of Indianapolis at the Graham Annex, subscriptions to the Liberty Loan were taken. One \$5,000 subscription, one \$3,000 and six of \$2,000 each were made, and there were about a dozen \$1,000 subscriptions. The remainder of the \$25,000 was subscribed in smaller denominations.

Frederick Matson's address on the Liberty Loan was regarded as the best exposition of the question which was ever heard here and convinced the audience that they were not only doing the patriotic thing by investing, but that it would be poor business judgment not to invest if they had the money.

"The government is serving humanity and saving you and me money by going into the war on a vast scale and asking for billions instead of millions," said Mr. Matson.

The speaker said that two years of the civil war could have been cut off if the people had subscribed to the government bonds more liberally so that the Union armies could have been better equipped and cared for.

"Instead of conscription wealth," he continued, "as it has a right to do, the government is graciously asking us to loan it money backed by the best security ever known to man. A four per cent investment is god because you do not have to pay any taxes on it. In Marion county,

Indications Are Nation Passed The Minimum

Reports Reaching Washington Say Whole Country is Aroused to Highest Patriotic Fervor and if Same Spirit is Maintained, \$5,000,000,000 Will be Reached.

BANKERS SWEEP OFF FEET

(By United Press.) Washington, Oct. 25.—Indications today were that the Liberty Loan has passed the \$3,500,000,000 mark. Reports showed that the entire nation is aroused to the highest patriotic fervor and if the same spirit continues the \$5,000,000,000 will be reached by Saturday.

Bankers and local committees throughout the country have been swept off their feet by the rush of the Liberty Bond business. Many have telegraphed that thousands of purchases are being made.

The president of the Panama republic and all his cabinet have subscribed.

and the same thing will apply in most any county in the state, it is better than a six or six-and-a-half first mortgage security."

Mr. Matson called attention to the fact that government bonds always sell at a premium. He recalled that no government four per cent bonds had been sold since the civil war except some during Cleveland's administration when the gold supply got low. He pointed out that the three per cent government bonds issued during the Spanish-American war were quoted afterwards at 110 and 112.

"This is what will happen to these bonds," he stated. "It is certain that they will sell at a premium just as soon as the war is over. It is extremely easy to invest because the banks are helping by offering to sell them on weekly payments. The banks are doing a noble work voluntarily and without profit. On the contrary, they are doing it at a loss, in direct opposition to their interests. The Liberty Bonds are a better investment for the poor than the rich because the income from them above a certain amount is taxable."

Beginning with the story of his trip abroad Sergeant Ross told in graphic language of the many adventures which have fallen to his lot since he embarked from the United States to identify himself with the French aviators. His colorful words and the intensity of his eloquence soon had the entire audience under his control. He passed rapidly on and told of the conditions under which the men are trained for the new method of fighting. His experiences in the school for aviation were more than interesting. At the time of his enlistment this country was not at war and he left New York with the determination to become an ambulance driver in Red Cross work. Upon his arrival in France he tried the examination for aviation and passed it successfully, beginning his training immediately.

After being rushed through the preliminary training up to the point where he became proficient in the aerobatics of flying he was sent to the front where he received the final polishing touches under the tutelage of the best instructors in the art. He explained that his work consisted of patrol duty from 5 to 7 o'clock in the morning and again from 4 to 6 o'clock in the afternoon.

As the speaker told of the gripping features of the war, related how the sounds of the various sized guns impress one, told of how a gas attack had looked to him, and explained other features of the

GRAND JURY MAKES REPORT

Understood to Have Returned About a Dozen Indictments

The grand jury adjourned yesterday evening and made a report after having been in session five days, Tuesday and Wednesday of this week and three days last week. It is understood that about a dozen indictments were returned, although this is not definitely known because Judge Sparks was in Connersville this morning and has issued no bench warrants. On account of this fact, there are not likely to be any arrests on the indictments before tomorrow.

COURT IS REPORTED EQUALLY DIVIDED

Rumor in Indianapolis Says Two Supreme Court Justices Hold Womens Vote Law Void

OTHER TWO CONSTITUTIONAL

(By United Press.)

Indianapolis, Ind., Oct. 25.—When no decision was handed down on the case, testing the constitutionality of the law granting votes to women, it was reported that the court was equally divided—two and two—on the question. The fifth member of the court died recently and the vacancy on the bench will have to be filled. It was believed probable that no decision will be forthcoming until the new associate justice is appointed by Governor Goodrich.

The case is especially urgent as municipal elections will be held early in November and it is still uncertain whether or not women can vote at that time.

SIGNAL HONOR COMES TO DR. DOLPH HUMES

Former Rush County Man is Offered Position as Head of Hospital in France.

HE IS NOT LIKELY TO ACCEPT

A signal honor came to Dr. Dolph Humes of Indianapolis, well known here, who is studying brain surgery under French doctors in the University of Pennsylvania in Philadelphia, when asked by the famous Dr. Frazier to take charge of his large hospital in France. Dr. Frazier is one of the instructors under whom Doctor Humes is studying, and it was in this way that he became acquainted with Dr. Humes's marked ability as a neurologist.

Dr. Humes has not consented to take charge of the hospital for it would mean making his home in France permanently and his family moving there. It is probable that he will remain with the Eli Lilly Base Hospital with which he has enlisted and which is liable to be called to France at any time. It was for the purpose of taking charge of all nerve cases in the hospital that he took the course in the East. The course lasted six weeks and he has now been requested by the doctors in charge to remain for eight more weeks, on condition that he is not called before then, and take additional work. Dr. Humes is the son of John Humes of this county and the brother of Elmer Humes of this city.

ASKS \$125 DAMAGES

Ila E. Chapman today filed suit against Ora Logan in the circuit court for \$125 damages. The complaint alleges that an automobile driven by Mr. Logan struck a cow owned by the plaintiff while it was along the National Road between Gem and Philadelphia, Hancock county, and so badly injured that it is now worthless.

FALLS FROM SECOND STORY

Kathryn Wallace, 3, Falls Through Window to the Ground

Kathryn Wallace, three-year-old daughter of Mr. and Mrs. Frank Wallace, fell through an upstairs window at her home fifteen feet to the ground and suffered a broken left thigh bone. It was considered marvelous that she was not hurt worse because she fell such a great distance, but the fact that she was not cut by the window glass is regarded as even more miraculous. She had run upstairs while playing and accidentally run against the window, falling through the glass.

MAY INVEST TRUST FUND IN LIBERTY LOAN

Clerk of Circuit Court is Informed by Chief of State Board of Examiners it is Legal

MAY HAVE SOME TO INVEST

George Moore, Jr., clerk of the circuit court, this morning was informed in a resolution adopted by the State Council of Defense and forwarded to him by G. H. Hendren, chief of the state board of accounts, that he had the right to invest trust funds held by him as clerk in Liberty Loan bonds. Mr. Moore said that he held some trust funds, but that not all of them were available for investment just now because they would have to be paid out.

Mr. Moore said, however, that he would determine just how much of such trust funds were available and would probably invest them in bonds as requested by the State Council of Defense. The forwarding of the resolution by the chief of the state board of examiners lends the state's official sanction to the plan and makes it entirely within the law for the clerk to make such an investment.

S. L. TRABUE LIKELY TO BE ADMINISTRATOR

Attorney Will Probably be Appointed County Fuel Head—Recommended by 3 Organizations

MAY HAVE TO PICK COMMITTEE

In view of the fact that Samuel L. Trabue, local attorney, has been recommended to the state fuel administrator, Evans Woollen, for appointment as county fuel administrator, it is considered very probable that he will be named for the position. The County Council of Defense, the officers of the old Chamber of Commerce and the Rush County Business Men's association have recommended the name of Mr. Trabue to the state administrator. Confirmation of his appointment is expected in a few days.

Whenever a county fuel administrator is named, he will take over the duties which were assumed by the fuel committee of three members appointed by the County Council of Defense last Saturday. At that time the defense body did not know the state fuel administrator contemplated any such action. It is suggested by the federal fuel administrator that the county administrator be assisted by a local committee, but it is the understanding here that committee is to be appointed by the county administrator whenever he is named.

274 PLANES BROUGHT DOWN

(By United Press.)

London, Oct. 25.—Two hundred and seventy-four German aeroplanes were shot down in September, according to the official report today. During the same period, the British lost forty-six machines.

SEAL SALE STARTS THANKSGIVING DAY

Campaign Expected to be More Successful Because of Awakened Interest in Red Cross

COUNTY WILL BE THE UNIT

Sale Will be Conducted by Chapter Here Instead of State—Local Campaign Plans

Thanksgiving day, November 29, has been set by the Anti-Tuberculosis society as the day for the opening of the campaign for Red Cross Christmas seals. It is expected that the sale will be more successful than usual this year because of the awakened interest in the Red Cross. Each auxiliary of Red Cross in the county is asked to co-operate in the sale of seals and to see that the proceeds from the sale are either sent directly to the local Red Cross chapter or used for the prevention of tuberculosis in the locality of the auxiliary which has charge of the sale. If the proceeds are handed into the treasury of the local chapter, the auxiliary will have the right to call for the services of the visiting nurse to that part of the county. Heretofore, the sale of seals has been in charge of the schools over the county.

Locally, the campaign will be carried on much as it has in recent years. The members of the Psi Chi Xi sorority will be asked to take charge of the sale of seals in this city. Dr. W. S. Coleman stated at the Red Cross meeting yesterday afternoon. Letters enclosing one hundred seals will be sent out, asking that one dollar or more be returned. Stands will be stationed at the postoffice every day for several weeks preceding Christmas and the seals will be on sale in a number of stores.

The war is making it necessary that the fund raised by seals for the Anti-Tuberculosis society this year exceed that of former years. It is stated by authorities that the tuberculosis is not contracted in the army so much as that cases in their first stages, which are not recognized as tuberculosis, develop rapidly under the exposure. Too, men who have not known that they have tuberculosis, find that they are in the first stages of the disease when they undergo the army examinations.

Last year, the sale of seals throughout the county, aside from the city, was conducted by the state and the proceeds handed into the state. This year, it is hoped with

SUGAR SHORTAGE WILL BE RELIEVED

New Supply Is Expected Within Two Weeks, But It Will Be Mostly Beet Product

PEOPLE THEMSELVES BLAMED

Fearing It Would Be Exhausted, Order Large Quantities—Some Grocers Limit Purchases

Rushville is feeling the sugar shortage only slightly, due to the fact that the local merchants each had a plentiful supply before the shortage was noticeable. With the supply of sugar all over the country becoming greatly decreased, consumers began to fear local dealers would completely run out of the product and for this reason ordered sugar in such large quantities that the supply did become limited.

On this account, the local grocers are limiting the amount that can be sold to each consumer. Some grocers are selling five pounds to a customer while others are selling ten pounds. It was stated by one grocer today that the shortage would not have been felt in this city, had not the people ordered in such large quantities, many of them from more than one grocer.

The new supply of sugar is expected by the grocers in about two weeks time. A part of this will be cane sugar, which the public has been using largely, and a part will be beet sugar which will be used more later. The sale price is ten cents per pound.

In case the demand for the product continues as for the past week the amount allowed each consumer may be lessened, as it has already to some extent. One dealer suggested that if the people had practised to any extent the conservation of sugar which the government is urging, the shortage would never have been felt. Too, it is suggested at this time that consumers use sorghum in as many ways as possible as a substitute.

In the eastern cities the shortage has been felt most seriously. In New York city it is said that the restaurants have had nothing but loaf-sugar to supply their patrons, and that two pieces of sugar cost five cents everywhere. That is getting pretty high for sugar for your morning cheer.

Reports from the beet sugar manufacturers in the north and west are that the supply of beet sugar will be the largest for several years, and this should allay all fears of a sugar famine during the winter months.

Continued on Page 4

MAY REOPEN CASES OF FARMERS WHO ARE HINDERING UNCLE SAM

District Army Selection Board Says it is Informed Some Are Holding Their Crops

REFUSING TO INVEST IN BONDS

The clerk of the Rush county army selection board received a letter this morning from the district selection board, urging that the names of farmers who themselves or their sons have been exempted from military service and are holding their crops for higher prices, refusing to help the Red Cross or invest in Liberty Bonds, be reported to the board at once so that their cases may be reopened. The board says that such reports have reached Fort Wayne and that it is anxious to reach men who have been so unpatriotic as to do these things which are hindering the government in its prosecution of the war with Germany. The letter in full follows: "We have been informed that

some farmers in your community who have themselves or whose sons have been granted a discharge, are holding potatoes and other crops for higher prices, are refusing to help the Red Cross and to buy Liberty Bonds. If this is true they are certainly putting their own welfare above that of Uncle Sam. He would suggest that your Red Cross and Liberty Loan committees wait upon these men and give them an opportunity to show their loyalty and willingness to help their country.

"If you will furnish us the names of persons who are able and yet refuse to take advantage of this opportunity we will at once reopen their cases and give serious consideration as to whether or not such facts do not warrant a revocation of their discharge.

"This letter has been submitted to the state conscription agent and meets with his approval.

MILES F. PORTER, chairman.
EARL H. CRAWFORD, secretary.

Heat Your Home Better with Hot Air—Pay Less

See the Estate Hot Storm IN ACTION!

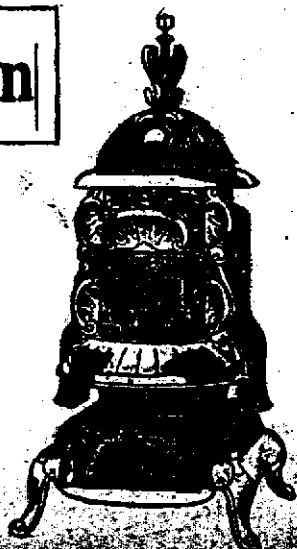

THE WONDERFUL new system of hot air heating that brings the comfort and convenience of a furnace-heated home within everyone's reach will be demonstrated and thoroughly explained by an expert from the Estate Stove Factory at—

Gunn Haydon

Estate Hot Storm

—the Stove with a "Little Furnace" in it

is not a stove, not a furnace, but a heating system that combines the best features of both. It sets in the room like a stove, its exterior looks like a stove, but there the similarity ends. For its interior is utterly different from any stove you have seen—inside it is built like a hot air furnace.

JOY-RIDING IS NO LONGER JOY

Gasoline Prices so High in England That Most Machines Forced Out of Business

NOW SELLING AT \$1.09 GALLON

Taxicabs Forced to Increase Rates Because of High Price of Gasoline

(By United Press.)

London, Sept. 25.—(By Mail)—Joy-riding in the British Isles is no longer a joy. Gasoline prices took another running-board jump today of 18c. The market price is now \$1.09 per gallon.

The newest increase in gasoline is going to hit several millions of the common people. Much of the street transportation is by huge motor buses. Already they are planning on boosting the fares to keep up with the soaring price of gasoline.

The few remaining taxicabs on the streets will be forced to increase their rates. Despite the terrific prices of fuel, their rates of about 16 cents per mile compare favorably with the charges in American cities in normal times. Now, however, they are talking of 20 or 25 cents per mile.

Leading dealers in gasoline explain that the prices were made necessary by the high insurance rates on tank ships. Insurance on these ships is now 18 per cent of their value for each round trip.

Much of the heavy hauling in the down-town streets of London is being done by steam traction engines in the place of motor trucks.

HOGS ARE STERDY WITH RECEIPTS 8500

General Sales Range From \$15.25 to \$16.25 and Top is \$17.10 in Indianapolis.

GRAIN PRICES ARE STRONGER

Indianapolis hog prices were steady today with receipts at 8,500, which is 1,000 greater than yesterday. General sales ranged from \$15.55 to \$16.25 and top price was \$17.10. Cattle were steady and calves 25 to 50 cents lower.

Grain prices were generally higher, corn in Indianapolis advancing two to three and a half cents. Oats was about a half cent higher. December corn in Chicago was up three cents and May, two and a quarter. December oats advanced five-eighths of a cent and May, three-eighths.

MURDERER HELD

Bellaire, O., Oct. 23.—Accused of murder of Mary Koehner, a school girl, O. C. Dischley, a detective on the Baltimore and Ohio railroad, was in jail here today. He was arrested at Bellaire, O., Oct. 23.

MEN AND WOMEN TO AID CONSERVATION

They Are Asked to Make Window Displays Emphasizing Food Conservation Week.

WILL USE THEIR OWN LINES

Township Committees Appointed Last Spring Will be Used in Obtaining Signatures.

With the merchants, ministers, school authorities, and a local representative of the council of defense co-operating in the plans for Food Conservation Week, the week promises to be a great success.

The canvass to the merchants asking them for displays presenting graphically the need of conservation has begun. Each merchant is asked to use his own line as far as possible in bringing the purpose of the week before the people and he will be aided by the charts and posters sent by the advertising committee.

The members of the committee over the county appointed by the Council of Defense early in the spring to aid in war activities, will have an active part in presenting the conservation needs to the people in their townships. The method is left entirely to the members of the committee who may appoint sub-committees. It is not likely that a house-to-house canvass will be made, however, inasmuch as this was done for the Woman's Service League not long ago.

Aside from stands where the conservation cards may be signed in the local stores during the week set aside for conservation, each child in school will be given a card to take home and return signed.

Upon signing a card, each woman receives a card for the window stating she is co-operating with the government, a card bearing "The Kitchen Creed," and a pamphlet containing suggestions for the kitchen and recipes.

DAMAGE SUIT FOR \$10,000

Minnie B. Moore Files Action to Collect Judgment

The case of Minnie B. Moore by her next friend, Charles Gross, against the T. H. E. & L. Traction company, for \$10,000 damages, has reached here on change of venue from Shelby county and placed on file in the Rush circuit court. A suit was filed in Hancock county by M. B. Smith, administrator of the estate of H. T. Moore, husband of Minnie Moore, for damages on account of the death of Mr. Moore, who was killed by one of the defendant's cars. It is set out that a judgment was rendered in favor of the administrator and that it has never been paid. The present suit is to collect that judgment.

The Bewley-Darst Coal company has filed suit in the circuit court against Hiram H. Henley of Carthage on an account, demanding \$137.90.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantage of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

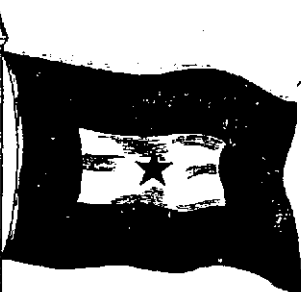

Wyeth's Sage and Sulphur Compound is a wonderful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

WILL SEIZE PROPERTY OF GERMANY'S ALLIES

Custodian of Alien Property Will Turn Dividends on Investments Into Treasury.

TO INVEST IN LIBERTY LOAN

(By United Press.)

Washington, Oct. 25.—All holding of subjects of Bulgaria, Turkey and Austria in the United States will be seized together with German property, A. Mitchell Palmer, alien property custodian announced today. Palmer's decision regards Bulgaria, Turkey and Austria as enemies although the United States has never declared war against these allies of Germany. His ruling followed a series of conferences with treasury department officials at which the scope of the trading with the enemy act was considered.

Bulgaria, Austria and Turkey have vast stores of supplies in the United States. The dividends from their investments will be turned over to the treasury department for investment in Liberty bonds in the future.

PARENT-TEACHERS CONVENTION HELD

Problems of Rearing Children and Their School Work to be Discussed at This Time

AMOS W. BUTLER WILL SPEAK

(By United Press.)

Evansville, Ind., Oct. 25.—Delegates met here today for the annual convention of the Indiana Parent-Teachers' association and the State Mothers' congress. Problems in connection with the rearing of children and school work will be discussed.

Amos W. Butler, secretary of the State Board of Charities will speak at a public meeting tonight on "The Influence of the Mentally Deficient Child Upon the Community." The convention will continue 3 days. At a meeting tomorrow night, T. F. Fitzgibbon of Columbus, Ind., will speak on "The Affiliation of the Mothers' Congress With the Children's Bureau." Fitzgibbon is president of the Indiana children's bureau.

—J. E. Foldrich of Richmond was a business visitor here yesterday.

MILROY WOMAN IS ELECTED TO OFFICE

Mrs. Jennie Powers Chosen Tithing Secretary of M. E. District Missionary Society

TWO FROM HERE ARE PRESENT

The Rev. C. S. Black Delivers Address at Joint Meeting of Two District Societies

Mrs. Jennie Powers of Milroy was elected tithing secretary of the Woman's Foreign Missionary society of the Connersville district of the M. E. church at the closing session at Waldron yesterday afternoon. She was the only Rush county woman elected to any office. Mrs. R. C. Hargrove and the Rev. C. S. Black, pastor of St. Paul's M. E. church attended the sessions of the society.

Mrs. Fannie Ward of College Corner, O., was elected president, and Mrs. J. E. McCarney of Shelbyville first vice-president. The vice-presidents chosen are Mrs. J. E. Wilkin and Mrs. Cora Driscoll. Other officers elected were the following: Recording secretary, Mrs. Lottie S. Filer, Liberty; corresponding secretary, Mrs. O. E. Bacon, Connersville; treasurer, Mrs. Scott Michener, College Corner; superintendent Standard Bearers, Miss Cora V. Shearer, College Corner; superintendent children's work, Miss Alice Emmert, Clarksburg; superintendent mite boxes, Mrs. Emma Hockenberry, Indianapolis; conference treasurer, Mrs. Anna B. Adams, Indianapolis; conference secretary, Mrs. Hattie L. Ashbury, Indianapolis; secretary extension work, Mrs. W. H. Whitsett, Princeton; secretary tithing, Mrs. Jennie Powers, Milroy.

Fifty-four delegates registered for the meeting and many matters of importance in the line of business were attended to in addition to the election of officers. Yesterday

the delegates went to Greenburg to meet with those from the Moore's Hill district in a joint session and Indianapolis Live Stock Market address.

INDIANA EXPERTS HOLD CONFERENCE

Three Sections of the Meeting Addressed by Prominent Men of Indiana.

CLOSING ADDRESS BY CLORE

(By United Press.)

Lafayette, Ind., Oct. 25.—Organization of local associations was discussed at today's meeting of Indiana's agricultural experts, here. The meeting was divided into three sections. The sections on community organizations, farmers clubs and farmers institute associations hear addresses by George Libert, Goshen; Mrs. C. N. Linley, Salem and Prof. Latta of Purdue University. Prof. R. E. Caldwell of Purdue explained how dairy interests could help in the food emergency.

G. M. Fryer of the Extension department of Purdue spoke on the great benefit derived from farmers' short courses. L. B. Clore, treasurer of the Louisville farm loan bank, made the closing address of the conference on the subject of the farm mortgage loan.

BREAKS THROUGH THE ITALIAN LINE

Austro-German Troops Also Capture 10,000 Prisoners, Berlin War Office Asserts

FRENCH ARE MOVING FORWARD

London, Oct. 25.—Austro-German troops have broken through the Italian line to the west of the Isoneo.

This was officially admitted by the Rome war office today. At the same time Berlin claims that 10,000 Italian prisoners including a brigade and divisional staff of the Italian army had been captured.

Dispatches told of great concentration of Austrian forces on the attacking front of 18 miles.

On the west front French troops moved toward Loos today.

"A SHINE IN EVERY DROP"

Black Silk Stove Polish is different. It does not dry out; can be used to the last drop; liquid and paste form one quality; absolutely no waste; no dust or dirt. You get your money's worth.

Black Silk Stove Polish

is not only most economical, but it gives a brilliant, silky lustre that cannot be obtained with any other polish. Black Silk Stove Polish does not rub off—it lasts four times as long as ordinary polish—so it saves you time, work and money.

Don't forget—when you want stove polish, be sure to ask for Black Silk. It can't be the best stove polish you ever used—your dealer will refund your money.

Use Black Silk Stove Polish for silverware, nickel, tinware or brass. It works quickly, easily and leaves a brilliant surface. It has no equal for use on automobiles.

Polk is Coming to Rush County AND COMING TO STAY!

Polk Offers All Farmers a Bigger, Better, More Profitable Market for Their Milk.

We Will Prove That There is More Money in Selling Whole Milk than in Selling Cream.

Our truck will call at your door for milk every day and settlement will be made twice a month.

Get away from the drudgery and loss in separating cream and get paid for all the butterfat in your milk.

Try selling to POLK and you will not want to go back to the old way. The strongest argument we can offer is the results we show. LET US SHOW YOU.

We Offer Every Assistance Possible to Our Producers and will Help Cut Down the Cost of Production. We Furnish High Class Dairy and Hog Feed at Cost

and supply anything needed in equipment etc at wholesale prices, which we secure by contracts for larger quantities early in the year when the price is lowest.

Big Meetings at Waldron, Monday, Oct. 29th, 7:00 P. M.; Blueridge, Tuesday, Oct. 30th, 7:00 P. M.

Come and Hear Us Explain the Whole Plan

WALDRON STATION OPENS NOVEMBER 1st, 1917, and on that morning our trucks will call for milk at any farmers, within southwest portion of Shelby County.

Don't Miss the Meetings at Waldron and Blueridge

There will be good entertainment, instructive and profitable talks and plenty of ice cream and cake.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

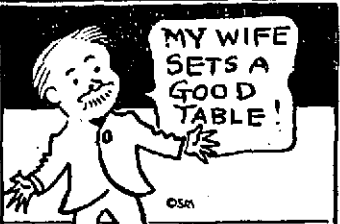

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

GOOD PROVIDER'S FAMILY

She's found a grocery that sells the best of food. So my wife tells!!

My wife's telling all her neighbors all about the polite service and the quality goods to be found at this grocery shop. And she says their business is increasing by leaps and bounds.

No Camouflage About It

For nearly four weeks the United States government has had before the people of this nation the second issue of Liberty Loan bonds, asking a minimum subscription of \$3,000,000,000 with which to meet expenses of the war against Germany. Practically every cent of this money is to be expended in this country.

The people of the country despite the appeals of the government, have been somewhat slow in their response. Secretary of the Treasury McAdoo has been extremely frank with the nation in explaining just what the money is wanted for—the equipment and munitioning of the American troops who are being sent to Europe to fight the enemy in the trenches.

There should be no question in the minds of the public about raising this fund. The government must have it, and the government will have it. Voluntary subscription is always far pleasanter than conscription of money, yet there will be no hesitancy on the part of the government if more drastic measures are found necessary.

Secretary of the Navy Daniels in a speech before the Iroquois Club in Chicago last Monday made plain the position of the government—that America's dollars, like America's men, should come willingly to the service of their country but, America's dollars, like America's men, will do their part, whether willingly or not.

"Just as truly as a republic can lay its hand on a young man and send him to France in the trenches," he said, "so it can, and will, if necessary, lay its hand on every dollar in America. Under the law we have the right to do so, but the first Liberty Loan was responded to so cheerfully and so fully that there was no necessity—and there will be no necessity now."

These are strong words, but coming from a responsible head of the government, speaking officially for the government, they should sink deep into the minds and hearts of every American.

(Are we as a nation, so unpatriotic that we will not support our own flesh and blood in this war? Will we permit the German nation not only to outdo us in patriotism but to know that we are not sufficiently interested in our own boys to protect them in every possible way?)

Heaven forbid that we have sunk to such depths! Let every American arouse himself, go forth with renewed energy and courage and help to bring this campaign for the second Liberty Loan to a wonderful, thrilling finish, an oversubscription so tremendous that Germany will be at once that we are a united

people, fighting the fight of civilization and humanity, ever living up to the ideals upon which this government was founded.

The Red Cross

The annual report of the treasurer of the Rush county chapter of the Red Cross discloses a wonderful work well done. It scarcely seems possible that an undertaking of such size should be operated for a year with the small expense of \$115.59, but this is what the figures show and they never tell half truths. This only goes to show how the people of Rush county have responded to the call for help for such a noble enterprise and the manner in which it has succeeded further proves its worthiness.

The treasurer's report revealed a membership of close to four thousand, a record not equaled by many counties the size of Rush county in the state. But the most gratifying thing about the report is the war fund. The report shows that subscriptions to this fund amounted to \$22,137.99, which is remarkable for a county of this size. The chapter still has \$3,229.80 of this fund on hand which may be used for any war relief measures at hand. Only \$450 has been used by the chapter so far.

But the treasurer's report does not represent by any means the accomplishments of the chapter. Hundreds of women have given much of their time to the enterprise for the sake of the boys who have gone out to make the world safe for democracy.

Liberty bonds are practically guaranteed by the government against any decline in value, as they are convertible into any succeeding issue at a higher rate of interest.

Austria's war chickens seem to be coming home to roost, and she has a large flock.

SUGAR SHORTAGE WILL BE RELIEVED

Continued From Page 1
For before the supply of beet sugar is anywhere near exhausted the cane refineries should have their product ready for the market.

So while the present scarcity of sugar makes it necessary to economize in the matter of home consumption, it need be no cause for alarm as with care the supply will last until the fall beet sugar is received by the local retailers.

SEAL SALE STARTS THANKSGIVING DAY

Continued From Page 1
The county working as a whole, far to exceed past records. The division of the proceeds is as follows: 75 per cent is retained by the chapter selling the seals for use in preventing tuberculosis, and the remaining 25 per cent goes to the state and national headquarters for the expenses of advertising and providing the stamps.

PARCELS UNDER 7 POUNDS

Washington, Oct. 23.—Christmas presents and other gifts from home for Americans soldiers in France must be restricted to parcels of not more than seven pounds each, the postoffice department has announced.

Rheumatics No Longer Gloomy

They have used "Neutrone Prescription 99" and found it there with the punch that kills Rheumatism.

Only the skeptical now suffer. The victims of Rheumatism all tell the same story, they have sore, inflamed muscles and stiff joints, they have no ambition or strength and get nervous, cross and irritable, which is not to be wondered at. Thousands of old time Rheumatics are now in the best of health after using "Neutrone Prescription 99."

Its satisfied users are its best advertisers, pretty good advertisers, too. No matter how little or how much you suffer go and get a bottle of "Neutrone Prescription 99." You will be surprised at the results. Those sore, inflamed joints and burning, aching muscles will disappear, and you will feel fine every hour of the day. Mail orders filled on \$1.00 size.

Pitman & Wilson and leading druggists everywhere, Rushville, Ind.

There Is a Moral Obligation

which rules every act of our lives. The mature man who does not recognize and meet, in the main, these obligations to society, so far as his ability will permit, is a social outcast.

In a crisis such as our country is now facing, the lines are naturally more strictly drawn, and every man is held accountable for service in her hour of need.

It would seem that the least service that any many could render would be to loan some of his money to his Government at a good rate of interest.

Come in and buy a bond. Tell us how you want to pay for it. We will do the rest, take care of all the details and deliver the bond to you without expense to you or profit to ourselves.

On the partial payment plan, you will receive interest on all you have in, and no interest charge will be made by us on deferred payments.

NOW COME ON — THERE IS NO LONGER ANY EXCUSE.

Do Your Part!

THE RUSH COUNTY NATIONAL BANK

Society

Mrs. Allen Blackledge, formerly Miss Inez Stager, was the guest of honor at one of the most delightful social affairs ever enjoyed by the members of the Psi Iota Xi sorority when Mrs. Donald Alexander entertained at luncheon yesterday at her country home west of the city. The sorority colors of blue and gold were prettily carried out in the place cards, dainty little hand painted affairs on which the chrysanthemums were tied with a blue bow, and in the lovely bouquets of chrysanthemums on each of the tables, where the 23 guests were seated. The luncheon was served in four elegant courses. A shower for the recent bride was a feature of the afternoon when numerous gifts of all kinds were given to her and the sorority presented her with six silver teaspoons. The guests were entertained during the remainder of the afternoon with knitting and musical numbers.

The meeting of the Wednesday Afternoon club with Mrs. Lon Kennedy yesterday afternoon was in the form of a Halloween party. The living room, lighted with pumpkin faces made a pretty setting for the ladies, who spent the pleasant hours over knitting and needlework. Banks of autumn leaves adorned the walls of the dining room. Another feature, which added to the novelty of the affair was that the dishes used for the luncheon were heirlooms, being over one hundred years old. About eighteen members of the club and three guests, Mrs. Joe Miller, Miss Elgie Thomas and Miss Margaret Mahan enjoyed the delightful afternoon. Mrs. Sam Innis will entertain the club Halloween night at her home in North Perkins street.

Mrs. Britt of Glenwood was the hostess to the members of the Sorosis club, Tuesday afternoon. Two guests, Mrs. Charles Brooks and Mrs. Otto Cameron were also in attendance. The roll call was responded to by quotations from Dickens. Mrs. Murry read an inspiring paper on "Dickens, The Man and Author" and Mrs. Powell gave a review of her favorite book. The hostess served a dainty luncheon, in which the color scheme of pink and white, the colors of the club, were carried out. Mrs. Murry will entertain the club, Tuesday, November 13.

Mrs. J. P. Frazee and Mrs. A. L. Riggs gave a pitch-in supper last evening at the home of Mr. and Mrs. Frazee in North Main street when the guests were Mr. and Mrs. Charles W. Ross and sons, Lieutenant Raymond Ross and George Ross of Crawfordsville, A. L. Riggs, Guy Abernethy and daughter, Laurett.

Mrs. Herman Tompkins was hostess to two tables of the Wednesday Afternoon Bridge club yesterday at her home in East First street. Mrs. T. W. Betker was the only guest. At the close of the afternoon, Mrs. Tompkins served refreshments. Mrs. Clarence Cross will entertain the club in two weeks.

Mrs. Carl Gunning is entertaining a number of friends tomorrow afternoon at her home in West Tenth street honoring Mrs. George Hogsett, a recent bride. The affair is to be a shower.

With the Fingers! Says Corns Lift Out Without Any Pain

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of frezone, says a Cincinnati authority. It is claimed that at small cost one can get a quarter of an ounce of frezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection. This new drug is an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue. This announcement will interest many women here, for it is said that the present high-heeled footwear is putting corns on practically every woman's feet.

A well planned surprise was successfully carried out last night, when a number of friends gathered at the home of Mrs. Sylvester McKibben, near New Salem, in celebration of her birthday. Masses of autumn flowers adorned the prettily laid table, where the elegant supper was served. The Rev. and Mrs. M. F. Bliff, Mr. and Mrs. Sylvester Colvin, Mr. and Mrs. Enos McKibben, and family of Arlington, Mr. and Mrs. John Murphy and son Gilbert, Miss Mary Colvin and Mr. and Mrs. Allen Barnes were among the guests.

Miss Helen Shaffer of Springfield, Ohio, and Charles Bryant of Wabash, Ind., were married Saturday in Springfield. The wedding is of interest here, inasmuch as the bride has visited here frequently. Miss Belma Clark of this city visited in Springfield for a week preceding the wedding and was a guest at a number of pre-nuptial affairs. Russell Skipton, who is in Columbus, Ohio, in school, was also a guest at the wedding.

An announcement of interest here was made at a tea given by Miss Lola Jackson of Muncie when the engagement of her sister, Miss Sarah Jackson, to Ray Clark of Muncie was made known. The wedding will take place tomorrow. Miss Jackson is well known here, having visited friends in this city a number of times.

Mrs. B. O. Simpson entertained several tables at Bridge and Rook, yesterday afternoon at her home in North Main street, honoring her house guests, Mrs. A. E. Norris of Belleville, Kan., and Mrs. Warne Carmichael of St. Louis, Mo. The hostesses served a dainty two course luncheon.

Mrs. Clyde Deputy entertained with an informal Rook party this afternoon at her home in Milroy. The guests of honor were Mrs. Lampton, Mrs. Dora Jackman, Mrs. John Frances, and Mrs. C. S. Hoagland. A dainty salad course was served by the hostess.

The Rebekahs will meet in their regular session tomorrow evening at 7:30 in the I. O. O. F. hall. The degree staff will meet for practice and business of importance will be settled. A large attendance is desired.

The Ladies Musicale will meet Monday afternoon at 2:15 in the assembly room of the court house and every member is urged to be present.

RESIGNS TO HELP FUEL ADMINISTRATOR

John P. White, President of United Mine Workers of America, Quits Post Today

FRANK J. HAYS IS ELECTED

(By United Press.) Indianapolis, Ind., Oct. 25.—John P. White, president of the United Mine workers of America, today presented his resignation at a meeting of the board of directors. He announced that his work as advisor to the federal fuel administrator would take up all his time. Frank J. Hays, vice-president, was elected president and John L. Lewis, former organizer, was made vice-president. Both were formerly connected with the Illinois organization. In accepting the office Hays advocated industrial peace and urged the miners to be loyal to their country in the present crisis. White stated that he had long considered this step and recent accomplishments of the organization permitted him to make the move at this time. NAMED FAYETTE FUEL HEAD (By United Press.) Indianapolis, Ind., Oct. 25.—E. P. Hawkins was today named county fuel director for Fayette county.

MAY GET A CHANCE TO MAKE ARMY BAGS

Rushville Women Make Effort to Get Government Station Here For That Purpose

TO GET PAID FOR THEIR WORK

An attempt is being made to have a station placed here for making the army bed bags which are in great demand and are being made by women in the state. Mrs. A. L. Stewart, upon the suggestion of a number of local women, has taken the matter up with the quartermaster general. The first request from Mrs. Stewart was refused because the distance of Rushville from Jeffersonville made the freight higher than that to other places where the bags could be made. An offer was made by those interested locally to meet the same requirements as the other towns where the bags are being made and to furnish bond for all material sent out from Jeffersonville. A reply from this suggestion has not been received yet.

The bed bags, like the army shirts, are a part of the army equipment which are made by the women who receive a small payment for their work. It is thought that the price paid for making the bags is about ten cents a piece. The station is run on practically the same principal as that for army shirts. It will be remembered an attempt was made recently to have Rushville as a center for making the shirts.

The making of the bags is very simple. They are used as straw ticks by the soldiers, made with one seam down the center, sewed at each end, with a faced opening in the center where the straw is put in. They are made of very heavy material.

BOLD BANDITS ESCAPE

(By United Press.)

Indianapolis, Ind., Oct. 25.—Two bandits shortly after noon today held up the auditor of the Washington hotel on the 17th floor of the building and robbed him of \$2,000. The robbers ran to the elevator and forced the operator to take them to the main floor, making their escape.

The will of the late William J. Kirkpatrick, who died a few days ago, was admitted to probate in the circuit court today. He bequeathed all of his property, both real and personal, to the widow, Louisa E. Kirkpatrick. The will provides she shall be executrix, but it is said she will not qualify.

BOND TOTAL GAINS ANOTHER \$200,000 IN TODAY'S REPORT

Continued From Page 1

world war his audience was literally spellbound.

Conditions in France, stories of the extreme devotion of the French to the ideal for which the war is being waged, tales of the poverty, the gloom, the suffering and the

uncomplaining sacrifice of our great ally all were spoken of.

It was in the second part of his talk that the audience really came to know what this country must do. Stories of the immense sacrifice which France has made, sacrifices that cause our own to shrink to insignificance when compared with them, made the whole assembly feel that no labor, no expenditure of money and lives can ever equal that of France.

The stirring appeal from the lips of the young orator probably awakened more real patriotism than any single thing since the declaration of war. So earnest were his words, so evident was the depth of love he bears for his country that no one who heard him could feel quite the same toward the war as he had before.

War reliefs, campaigns which become almost monotonous in this country took on a new and brighter

meaning when explained by the young aviator. The good work that is accomplished by only a few dollars was brought out and everyone was asked to do his share toward winning the war.

YOUNG SPAINARD HAS MAN'S JOB

Is In Charge of Relief Work Being
Conducted by His Country in
Belligerent Countries.

TO AID POLISH SUFFERERS

He is But 22 Years Old But Goes to
Task Like an Old Timer—Force
is Enlarged.

(By United Press.)

Washington, Oct. 25.—He's only 22 years old—Senor Don Garcio Pelayo Clay, but he is holding down a man-sized job and getting away with it.

Senor Clay came to this country shortly after war was declared, to take charge of the relief work being conducted by the Spanish embassies and legations in belligerent European countries and the United States. His chief task is to establish connections between prisoners in war camps and sufferers in the over-run districts and their more fortunate relatives in this country.

"A prisoner of war in a Russian camp gives us the name and address of his relatives in America. It is forwarded to the embassy here at Washington and we locate the person if possible. Then, if desirable, we transmit whatever money they give us to the sufferer over the seas," explained Senor Clay.

An idea of the amount of work being done by the relief branch of the Spanish embassy here can be obtained from the statement that in August alone more than \$26,000 representing the remittance of 900 donors was dispatched to Polish war sufferers in Russian territory occupied by Germany.

"Our work has but begun," said Senor Clay, "In Poland, Serbia, Roumania and Palestine we are busily engaged forwarding money to war sufferers and carrying back news to relatives in America.

"During this month our remittance to Poland will exceed \$1,000. The gifts range from \$5 to \$50 and even \$100. The number of small remittances are surprisingly large—and most of the donors can not afford the sacrifice.

The "charity work" of the Spanish embassy here has grown so large during the past month that removal of the charity headquarters has become necessary. The force of clerks has also been enlarged.

To Any Woman—For \$1

This Big Aluminum Cereal Cooker

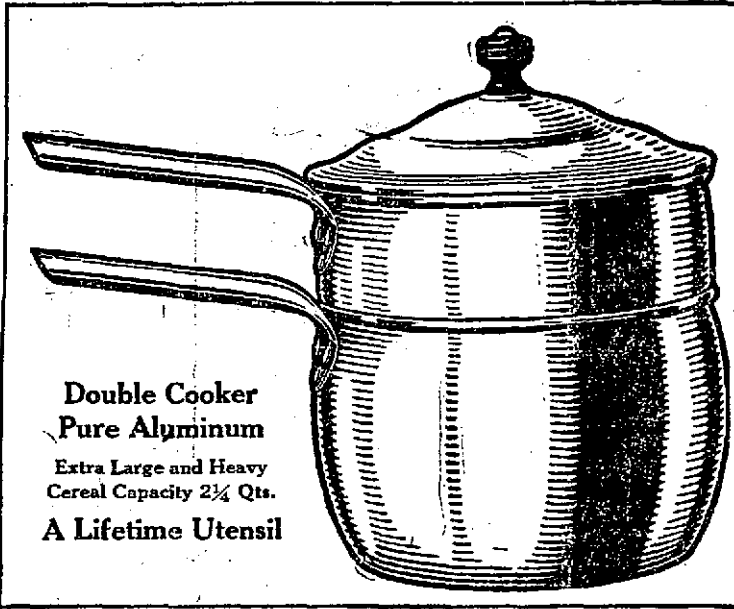

We make this One-Week Offer to Housewives here who have not had this Cooker. The cost of Aluminum has doubled in the last few years. Cooker prices have enormously advanced. But, in fairness to those who missed it last year, we repeat this Dollar Offer.

Cookers Supplied To a Million Homes

We have supplied Quaker Cookers to a million homes at very little prices. But the cost has advanced until our offer is almost impossible.

But grocers tell us that many housewives missed our former offer. They are using Quaker Oats and Pettijohn's, and they want this Aluminum Cooker. In fairness, they should have it.

So we renew this offer for next week only. It applies only to housewives whom we have not supplied already. It applies only to users of Quaker Oats or Pettijohn's, or both. It means twice as much as this Dollar Offer meant two years ago. Get this Cooker next week if you are entitled to it. You owe that to yourself.

Double Cooker
Pure Aluminum
Extra Large and Heavy
Cereal Capacity 2 1/4 Qts.
A Lifetime Utensil

To Rightly Cook Two Famous Dishes

We want every user of Quaker Oats and Pettijohn's to cook these cereals rightly. Right cooking makes them doubly delightful. It keeps the flavor intact. It makes them easy to digest.

This Aluminum Cooker has been made to order to meet exact requirements. It is extra large, so little or much can be cooked in it. It is extra heavy, made to last a lifetime.

This Cooker will next week cost you only \$1, if you send us the sales slip we ask for. This is a costly offer. And we simply want to know, before sending the Cooker, that you are a Quaker Oats or Pettijohn's user.

This Offer One Week Only

Get a sales slip from your grocer showing the purchase of three packages—in any combination of Quaker Oats or Pettijohn's. Send us \$1 with the sales slip and we will mail the cooker by parcel post. Sales slip must be mailed next week. This offer applies to this vicinity only.

The Quaker Oats Company, 1708 Railway Exchange, Chicago

Quaker Oats Which Saves You 75%

Measured by food value, Quaker Oats costs one-fourth as much as the average mixed diet. So each dollar you spend for Quaker Oats saves an average of \$3. Oats stand supreme among grain foods, in nutrition and in flavor. They form a complete food, supplying every need. As an energy food their fame is proverbial.

Make this the chief breakfast dish. Meat and eggs cost five and six times as much. Also use Quaker Oats in bread and muffins, pancakes and cookies. No other food is so economical.

Use Quaker Oats because of the matchless flavor. It is made of queen grains only—just the big, plump, luscious oats. We get but 10 pounds from a bushel. Yet it costs you no extra price.

Pettijohn's The Laxative Luxury

Pettijohn's Breakfast Food is soft rolled wheat, hiding 25 per cent bran flakes. It is a savory dainty of which no one ever tires. And it supplies the needed bran. Bran is Nature's laxative. Everybody needs it. Most folks would feel better if they ate it every day.

Fine foods clog the system. Bran supplies the needed roughage. Every doctor, as you know, urges its use, to avoid the need of drugs.

Try it one week. Note the good spirits which result. Never again will you return to a branless diet.

Pettijohn's Flour is another bran dainty. That is 75 per cent white patent flour and 25 per cent bran flakes. Use like Graham flour in any recipe. With these two products every meal can include some bran-made dainty.

These Grocers Will Feature the Cooker Offer Next Week

HELPING TURN OUT RADIO OPERATORS

Two New England Youths Establish
Free School to Train Wireless
Operators.

AUTHORIZED BY GOVERNMENT

Increased Merchant Marine Makes
Growing Demand For Operators.
Forty in Class.

(By United Press.)

Washington, Oct. 25.—Two New England youths decided some time ago that the United States needed a free radio school to train wireless operators for our new merchant fleet. And so, without making much fuss about it, they went ahead and established the school without cost to the government.

Today, these young men are training a class of forty in the mysteries of the Hertzian waves. The graduates of the free six months course are all pledged to join America's mercantile forces as wireless operators. Secretary of Commerce Redfield, traveling through England on his vacation "discovered" the lads and has commended them in an official report.

Arthur Batcheller, a radio inspector in Boston, and Walter J. Butterworth, a clerk in the same office, were working for the Navigation Bureau of the Commerce Department when the national crusade for a huge merchant marine began. "If we need thousands of ships, we will need thousands of operators," said Batcheller. "How are we going to get them?"

He interested Butterworth in the proposition. They made their plans—got an official O. K. on them and then went ahead. They borrowed camp chairs from a local steamboat company, dragged out an old black-

board from a school basement, obtained instruments and testing machines without cost by appealing to the patriotism of leading radio companies and by sheer grit and perseverance corralled all the other requirements for their school—including office space.

Then they sent out a call for pupils. By the score they responded. Result: a growing corps of wireless operators for the American merchant marine, trained free of all charge.

PROMINENT WOMAN HURT

(By United Press.)

Washington, Oct. 25.—Mrs. W. B. Colver, wife of federal trade commissioner, was knocked unconscious Wednesday afternoon when her automobile collided with a motor car driven by Mrs. E. N. Hurley, wife of the chairman of the United States shipping board. Four trolley cars figured in the crash also, with a total list of twelve persons injured. Mrs. Colver's injuries are not serious.

TAKING CARE OF SAMMY BIG JOB

Average Trooper Knows Little or Cares Less of How Supplies Reach His Camp

EVERYTHING HAS ITS PLACE

Lines of Communication Form One of Greatest Things Necessary For Army

(U. P. Staff Correspondent.)

American Field Headquarters, France, Oct. 10 (By Mail)—Stretching back overland to the sea the American line of communications is a constantly swelling artery vital to the life of Sammy training here in the field. Sammy knows he gets 15 ounces of white bread every day but he doesn't know much about where that bread came from. He gets clothing from the quartermaster and his rations from the company mess. If the supply is plentiful and the quality good Sammy doesn't bother his head much about how it was brought up to him. But the auxiliary people know.

The bakers know they stood out in the open all day and tended the field ovens far from the infantry training fields, to make the bread. They unloaded the big sacks of Minnesota flour from the railroad trucks that run right into the middle of the bakery. And they carefully slashed the loaves right down the middle to let out the gas before putting them in the ovens.

That little slashing operation looks simple, yet it was decided on only after hours of study by the officer in charge who wanted to save room in the bread cars. Formerly each loaf was slashed four times across the top. When the crust formed, intersections of these slashes raised up about an inch and the bread transport involved a great many wasted inches of space in the car. The new slash is just as effective in releasing the gas and it saves one half of the wasted space.

Suppose a grenade goes off prematurely in a practice trench and Sammy's arm is gashed to the bone by a fragment. The surgeon at the hospital bathes the wound with antiseptics, binds it with a special kind of bandage and puts the patient to bed in a comfortable hospital cot.

Sammy thinks of his own rough luck in being wounded but takes it as a matter of course that all that medical paraphernalia is right on hand all these miles from home.

Day by day that line of communication is growing, shooting out new spurs to supply the branches of service scattered along both sides of the trail. The bases are bulging beyond their original dimensions but even today the whole system is only in its infancy.

General Pershing and his staff have visualized a vast enterprise which has to be run on a military business basis in order to feed and clothe the great army that will be in France when we go into the trenches. Shells will come up along these lines and be pushed forward to the guns and the thousand and one kinds of supplies and equipment that a great army constantly needs must be kept moving in undiminished quantity.

CHILD SPECIALISTS GOING TO FRANCE

Third Detachment of Welfare Doctors and Nurses Will Sail Before End of Month

GREAT NEED FOR THEM SEEN

Moorhaven, Fla., Oct. 25.—Mrs. response to urgent cable requests from Major Grayson M. P. Murphy, head of the American Red Cross Commission to France, a third detachment of child welfare doctors and nurses will sail for France before the end of this month.

Physicians and child specialists to be included in the party are Dr. J. H. Mason Knox, Jr., of Baltimore; Dr. John B. Manning, of Seattle; Dr. Florence Chapman Child, of Philadelphia; Dr. Edmund J. Leithe, of Portland, Ore.; Professor of Pediatrics at the University of Oregon; Dr. Ethel Lyon Heard, of Galveston, Tex.; Dr. Helen

FLORIDA'S WOMAN MAYOR IS WORKER

Besides Managing Town of Moorhaven She Runs a Farm of Five Thousand Acres

DOES NOT TALK SUFFRAGE

She Is Interested in Her Land and As A Result Produces Some Large Crops

(By United Press.)

Washington, Oct. 25.—In a re-George Horwitz, the Mayor of Moorhaven Florida, the only Mayor of her sex in the United States, when she is not working at being mayor runs a small farm of 5,000 acres, where she raises nearly every known species of vegetables, and as a side line hogs.

Mrs. Horwitz has worked from four o'clock in the morning until 11 o'clock at night on her farm steadily through the summer season, and is convinced that there isn't a thing a woman cannot do.

She does not look like a woman who has been slaving in the fields all day and managing a small town at the same time. She is blond, pretty and young. "I am more than thirty, however," she said. Being Mayor one would think she would be willing to talk about the women in politics. "That is the last thing I want to talk about," was her surprising answer when the question of woman's suffrage was brought up. "Don't ask me what I believe for I don't know a thing about suffrage. All my life I have been busy doing the things I wanted to do and haven't had time to think much about political enfranchisement."

"Not that suffrage is not coming," she added "But in my mind the best argument for it is the evidence women are now giving in all sorts of war work. The work that women have done in the war relief agencies and the work they do in the juvenile and municipal courts is proof enough for me that any woman is as good and as capable as any man."

Getting off the question of votes for women Mrs. Horwitz dropped a few hints for the modern farmer. "The old time farmer" she said "didn't know when to plant or where. He simply dropped the seed into the same ground season after season. Nowadays anyone can learn to farm by doing as the Department of Agriculture tells you to. I have four large tractors and I work all day as long as my men do. And then of course I work at night too. If the government would make possible the development of other waste lands in this country—as these drainage canals have made them available in Florida—the feed problem would shrink in proportion."

Mrs. Horwitz has been made a member of the Governor of Florida's staff with the rank of Major. She is also on the State Committee on National Defense, and is preparing to organize a Home Defence organization.

"The job being Mayor is a new one and I like it," she said. I have to hand out justice for all petty offenses, for I sit as town magistrate in the town, and that, with managing the councilmen, is a full job in itself.

When she work in the field Mrs. Horwitz, like all the other farmerettes discards the skirts and takes to trousers.

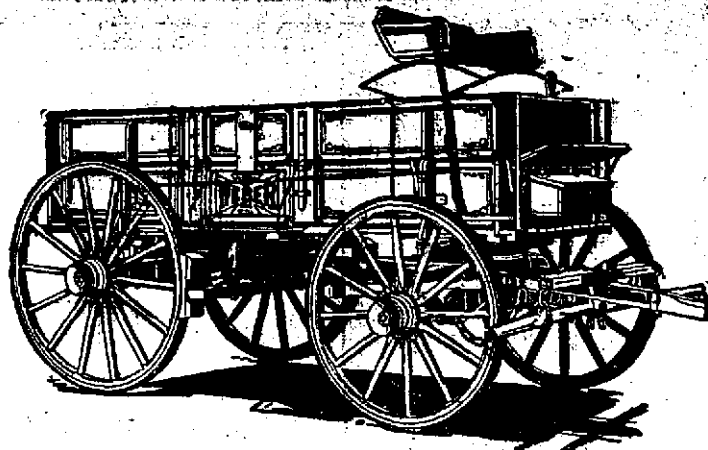

H. Woodroffe, of Ocean Park, Cal.; Dr. Dorothy Child, of Philadelphia; Dr. O. H. Sellings, of Columbus, O.; and Dr. Hugh Heaton of Melstone, Mont. There will be also nine or ten Red Cross Nurses.

"The demand for children's specialists," Major Murphy has just cabled, "far exceeds expectations. The original unit is now serving three different localities to meet the urgent demands for help. These calls come from the devastated area and elsewhere in France."

Relief from Eczema

Don't worry about eczema or other skin troubles. You can have a clear, healthy skin by using a little Zemo, obtained at any drug store for 35c, or extra large bottle at \$1.00. Zemo generally removes pimples, blackheads, blotches, eczema, and ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

The E. W. Ross Co., Cleveland, O.

Come In and See the Weber Here Are More Big Points

YOU will be interested in looking over the hound, hub, skein and skein box construction. On the Weber the hounds are of straight-grained oak; on the front gear they are of the same type, wide and roomy in the rear, to give the reach ample support in turning short. They are mortised and well braced with solidly welded steel. Hubs are of white oak only, turned, shaped and bored accurately for the skein boxes. Skein box is made so that a grease chamber is formed. A solid collar keeps the oil away from the wood of the hubs. Mud and sand cannot get into the axle and the skeins cannot wear into the skein boxes. That means long life and good service.

These are all reasons why you should have a Weber wagon—that is— if you want a wagon for real work. Come in and let us show you.

A Hard Winter

Yes, you have heard it prophesied by the old timers that this winter is going to be a hard one.

YOU CAN DO YOUR BIT

and lessen your winter hardship by making the same clothing do this winter that you wore last. If it is a little shabby in appearance, a little soiled or mussed, don't let that worry you. After a trip to our dry cleaning, repairing, altering and pressing departments you will not recognize it.

NO MATTER WHAT THE GARMENT IS — Overcoat, Suit, Dress, Skirt or Waist—WE CAN DO IT.

Cut Down Your Clothing Expense and Buy a Liberty Bond.

The Twentieth Century Cleaners and Pressers

Sign Your Country's Food Pledge—This Is It:

CUT OUT CAREFULLY ALONG THIS LINE

Pledge Card for United States Food Administration

If You Have Already Signed, Pass This On To a Friend

TO THE FOOD ADMINISTRATOR:

I am glad to join you in the service of food conservation for our nation and I hereby accept membership in the United States Food Administration, pledging myself to carry out the directions and advice of the Food Administrator in my home, in so far as my circumstances permit.

Name _____

Street _____

City _____

State _____

There are no fees or dues to be paid. The Food Administration wishes to have as members all of those actually handling food in the home.

Anyone may have the Home Card of Instruction, but only those signing pledges are entitled to the Membership Window Card, which will be delivered upon receipt of the signed pledge.

Cut this out carefully and send it to the Federal Food Administrator, Room 20, State House, Indianapolis, Indiana.

Do not send it to Washington. Send it to Indianapolis.

This is the same as the pledge card, and just as official. Do not sign this if you have signed a pledge card. Do not sign a pledge card if you sign this.

When you send this in, with your name and address, you will be sent free: (1) a handsome three-colored window membership card to show that

you are trying to live up to the suggestions of the food administration at your house; (2) an interesting and valuable book of suggestions and recipes, entitled "Ten Lessons on Food Conservation"; (3) a wall card to hang in your kitchen, entitled "The Kitchen War Creed," to show you how you can help win the war in your own kitchen if you wish.

And the food administration will mail you other helpful things later, perhaps.

To sign this card is a patriotic privilege. It will make you a leader

in your neighborhood in the task of saving certain foods for our soldiers and our allies.

Sign this card. Show Mr. Hoover you are with him. Hang out your window membership card when it comes. Read the interesting literature that will be sent you.

The government is not going to ask for your canned goods or for anything else, because you sign this card. You incur no obligations. You merely promise to study the problem of "food saving to win the war" and do what you can to help.

WAR BRINGS SKIM MILK TO ITS OWN

With Watered Milk Gone the Skimmed Variety is Admitted to Its Rightful Place.

VERY USEFUL IN COOKING.

As Tissue Builder It is Equal to Whole Milk But Not an Energy Producer.

Indianapolis, Oct. 25.—State Food Commissioner Harry E. Barnard stated today that owing to the war, skim milk is coming into its place as a cheap and nutritious food. He said:

"After many years of banishment skim milk is again a legal food in New York. Well enforced food laws have stopped the sale of watered milk so that the legislature felt justified in removing the ban on skimmed milk and admitting it to its rightful place among our best foods. The only difference between skim milk and whole milk is the butter fat. Quart for quart it furnishes the body with slightly more protein and milk sugar than whole milk does, and the same quantity of mineral water. As a tissue builder it is equal to whole milk but it is not nearly as good as an energy yielder. The foods which produce energy are the cheaper foods, and cereals and fats. The tissue building materials are the more expensive foods like meat and eggs. Skim milk therefore takes the place of an expensive food.

"Skim milk finds many valuable uses in cooking. If used in place of water in making bread it adds as much protein to every pound loaf as there is in an egg. A cupful of breakfast cereal cooked in three cupfuls of skim milk instead of three of water adds much protein to the dish as there is in three eggs. Vegetable soup made with milk is far better balanced than when the soup is made with water.

"The following method is suggested by the government food experts as a means of utilizing skim milk.

"Chop the raw vegetables or cut them into small pieces. Put them with the skim milk into a double boiler and cook until the vegetable is tender. The mixture can then be thickened and enriched as described above. By this method no part of the vegetable is thrown away and the liquid of the soup, instead of being part milk and water, is all milk. A soup so made, therefore usually has about twice as much protein as that made in other ways, and has the additional advantage of a particularly good combination of mineral substances for milk is rich in calcium and phosphorus, and the vegetables are rich in iron.

"In making these soups use is made of many of the parts of the vegetable that are ordinarily thrown away, namely the outer and tougher leaves of lettuce, which has a higher iron content than most other vegetables; the tops of celery and even the tops of young onions; small quantities of cooked vegetables left over from other meals may be utilized in these and in other kinds of soup.

"If in making these soups the vegetable is chopped finely in the meat grinder, they need not be strained before being served. If the vegetable is not so chopped, the soup may be put through an ordinary strainer or such vegetable as carrots or potatoes may be cut into slices and left in the liquid, in which case the dish resembles a vegetable chowder. These soups may be thickened with stale bread."

GERMANY HELPS ALLY

(By United Press.)
London, Oct. 25.—Germany has finally come to Austria's aid and started with her ally a powerful offensive on the Italian front. Berlin claimed that the German troops have captured foremost positions in the section where the Italian drive in August pressed the Austrians back. For many weeks reports have declared that Austria was pleading with the kaiser to send aid to oppose the steady Italian advances.

Princeton—The 6-year-old son of W. T. Roberts was cheated out of a five dollar gold piece by a "meanest man", who gave him two bright dimes for what the little boy thought was a penny.

Can You Guess What We Are To Pay for Butter Fat Week Beginning October 22?

Even in the face of heavy declines in the butter market our price will be _____.

The idea of not quoting you a price is to get you to send us your cream and prove to you that the WHITE RIVER CREAMERY Co. is the most profitable market for you to sell your Dairy products to. If you are not satisfied write us and we will make you satisfied.
